# Anvilite Streamers Corps

Created by Amy Winters-Voss Harry Hartzog Garrett Lewis Lyraine Alei Laura Renwick Secondhand Diane Morrison Kahuna The Elder Heffé

Thanks for visiting the ASC Network! We are a community for the World Anvilites who do internet streaming, broadcasting, podcasts, etc. - on Twitch, Youtube, and other outlets to share information, our streams, calendars, to support each other and work together.

> Building worlds. Building community. Building up people.
> — ASC Motto

Our code is the heart of who we are as a group. Our adherence to it shows our character.

### The ASC Code

Our purpose is to help our fellow World Anvil streamers and producers. We grow together and have power in unity.

We support, coordinate, promote, raid each other on twitch (if you stream there or whatever your platform allows), etc. If you overlap with someone - raid or do a stream together sometime.

WA requests that we not stream at the same time they do.

**Our values:**

- We're a team. We support each other.
- We are kind, polite, and respectful of others.
- We don't speak badly of our members or other broadcasters.
- We don't do things to take away viewers from others.
- We mentor newbies and welcome them.
- We advertise for the network.
- We respect our viewers. It's one thing to have, say, a political opinion--quite another to put viewers down because they disagree, or to sexually harass someone. Harassment has no place in our community.
- Streaming makes us public figures, so we keep that in mind when we speak.
- World Anvil is the heart and lynchpin of our existence as streamers, so we consider this in how we represent them. They have listened to us and graciously allowed us a chapter like group, a fan community of sorts. We can't speak for them or overide their business interests.
- We follow our platform's Rules of Etiquette.

# GDPR - General Data Protection Regulation

## Introduction

The Anvilite Streamers Corps (ASC) takes your privacy and the security of what little we collect seriously. The information you share with us allows us to verify you meet the simple requirements we have for joining. We will occasionally verify that you still meet the requirements.

## Principles for Processing Personal Data and Who We Share Personal Data With

User privacy and data protection are your right.
Taking those rights seriously is important to us.
This is why we only keep a bare minimum of data, and do our best to ensure things like your streaming calendar and your member profile page are under your control.

We will not share your information, with the exception of the requirements to share it with World Anvil for the purposes of maintaining our 'Corps' group status, for reporting member issues if we ourselves are unable to deal with the issue and World Anvil can, or if we are legally required to do so.

## Types of Personal Data We Collect and How It is Processed

What we collect is for membership purposes and stored in a spreadsheet available for officers only to view. This includes:

- Your Discord ID (So we can contact you for things like when your calendar is added to the network calendar, when your membership profile is posted, and to add you to the Corps role of members in the World Anvil discord.)
- Your email address (So we know where to expec the google calendar invites to come from and for an alternative option to contact you for ASC business. Sometimes people get banned from Discord, so this allows communication.)
- Your World Anvil author profile address (so we can verify you are an active member)
- Your streaming links (so we can verify you stream in those places and help provide opportunities for people to find your streams)
- The date you started on World Anvil (so we can verfiy you have been a member for the minimum amount of time required as set in our application page)
- The last date of update on World Anvil (so we can verify you are active on World Anvil)
- Discord conversations (checked but not stored - so we can verify you haven't been abusive to others on World Anvil)

## Legal Basis

The legal basis for which we collect this data is based on consent, since you provide it to be a member of the ASC.

## Retention of Personal Data

We will retain your record as long as you are a member. Should you leave the ASC, we will delete your data.

## International Transfers of Personal Data

Since our membership is International and World Anvil may not be located in your country, please be advised that your data may be accessed internationally by our ASC officers and/or World Anvil.

## Data Rights

Should you wish to access a copy of make a correction to, or erase your data email us at wa.streamers (at) gmail.com. Please note that if you choose to have your data erased, it will mean termination of your membership with us because we won't be able to verify membership details once we delete the data.

# ASC Member - Cryssalia

**Master Cryssalia**

Cryssalia Noire

**Broadcast Topics**

various, Gaming, Books, Food, Philosophy

**Channel Summary**

Cryssalia does almost a daily streaming with one or two days off. The majority of the streams are focused on article building with the sides of drawing. Their topic varies from daily lives to jokes or worldbuilding. Each day's topic depends on the day or their mood, but generally: **Worldbuilding Wednesday:** Wednesday is a good day to world build. Cryssalia will attempt to world build certain aspects of their world, and play around with the CSS. **Frolicking Friday:** Just before the World Anvil's official live stream, there will be a chill stream of art and discussion. Cryssalia loves to offer her input in life and art with their viewers. **Sprinting Saturday:** A New 3 Hour Weekly Event Cryssalia will be holding for those who are looking for more writing or productivity sprints, chatting with other writers and worldbuilders, or simply wanted to say hi. **Subtle Sunday:** A mainly note-taking session for their worlds and stories, Cryssalia keeps their notes close and accessible for easy reference.

# Anvilite Streamers Corps Network - A Gathering of Likeminded Souls

## What is the ASC?

We're a community of World Anvilites who do internet streaming, broadcasting, podcasts, etc. - on Twitch, Youtube, and other outlets to share information, our streams, calendars, support each other and work together. Esongbird24601 suggested our motto, and it really fits.

*Building worlds. Building community. Building up people.*

ASC Motto

## How Did it Start?

The Anvilite Streamers Corps began humbly, when I was helping the streamers in Qurilion's Happy Sun Lodge Discord server and my own server for our joint Summer Camp party. We wanted to support each streamer and catch each all the broadcasts. The little group even gave me the courage to start broadcasting too. I needed a visual of the schedule because the list of text got confusing fast. So we created a Google calendar. Word got around and people asked to be added to the calendar and it needed a home. It outgrew my ability to manage it and people on the calender said, "Hey let's make a network!" and "We'll help!" in the true World Anvil spirit. We just needed a way to stay organized and make the calendar management feasible for a sizeable group. Thus the ASC Network was born. Kahuna The Elder helped me test out ways to help the streamers have control over their calendar events and helps manage the calendar. He also designed our logo. DaniAdventures made recruitment posters. Secondhand Samurai jumped in to support us and give guidance. Zogmaddog took up the membership for us. Sable Aradia and Laurabones spearheaded the social media side. Timepool offered to help with the site and will make us our own theme. Heffe volunteered to help with events. And Lyraine Alei has been our head cheerleader.

ASC Calendar

Our network, which isn't even a month old, has grown beyond any hopes I had. The support from everyone has been amazing. Many members are already at affiliate level thanks to YOU - the wonderful World Anvil community. We're up to almost 30 members at the writing of this article. And I swear I see new streamers brave pushing that "Go Live" button each day. 2020 may have sucked badly on many fronts, but seeing the ASC come together and help people with their prompts and articles, teach people how to do CSS, and so many other amazing things -- it brings me to tears in gratitude and pride to be a part of it.

## What's new for ASC?

Members have complete control of their calendars. So once your calendar is added, any updates or additions will auto-magically show on the network calendar on our network home page. We recently posted the little blue dropdown menu under the calendar that allows everyone to view the calendar in their own time zone. The need for this was obvious right after we posted the calendar and people were saying things like "Oh, the calendar isn't in my time zone. How do I figure out what time it is?" or

"Darn I missed that stream because I goofed on the time." That the push that lead me into playing with statblock templates and the Google calendar API. So, I hope it helps you as much as it helps me. The network is also on Twitter and Facebook.

## What if I Don't Stream? Or if I Want to Watch other Streams

We hope you'll catch some broadcasts! Everyone's stream is unique. Personalities, topics, and help they offer - check each out that you can and see how they resonate with you. Ask questions. Join in on the conversation. If you like the stream, follow them. If you can't watch or listen the whole time, we understand. Stop by and say 'Hi', stay as long as you like. Click here to see the schedule. Click on an event to see the details. There's a link to the streamer's channel - so you can click to go there.

Streaming even details

We also post streams in the WA discord #summer-camp-streamers and #anvil-streams. And several other discords have a streamers channel, where you might see our streams.

## Why Do We Have Requirements?

We want to be as open and welcoming as possible. Our goal as a group is to not only grow as streamers but to give back to the community of World Anvil. Our requirements are simple. **You need to be on WA at least a month, have an active world, have WA related content in at least some of your streams, and your content must be allowable on the platform you stream on.** These help us make sure that people aren't just joining WA to use the community for publicity, and that people are team players. If you don't quite meet the requirements, we will still try to support you as a streamer. But you need to show us you've met the requirements to be on the roster and part of the network events and profile pages. If you're new to WA, glad to have you here. We'll be watching your content and cheering you on. I hope to have a WA newbie stream calendar just for that purpose. If you've not updated your worlds in a while, Summer Camp is a great excuse to do so! Our calendar is also getting pretty full. Soon we'll be officially asking that non WA related streams be only published on your streamer profile--which are coming soon. The fill-in template for them is designed, we just have some testing to do. As for what constitutes a WA stream, it's pretty open. Even working on a book you're writing based on a WA world would count, if you reference your world in the stream.

## How Can I Join?

We have instructions for joining and the ASC Code here.

## What if I Just Want to Try Streaming Before Joining?

We have a system to allow you to have an event highlighting that you're new--which will go on the newbie stream calendar.

## What Is the Plan for ASC?

Summer Camp is what brought our group together, so we'll be creating events after the hubbub of the big event cools. I've heard many people saying they'll keep streaming even after camp. And as mentioned above, we're about to test our user profiles so you can tell us about your streams and where you broadcast. And we're open to suggestions. See you all in the streams!

# Game of Tomes

Who Will Claim the Iron Tome? by Dani Adventures

The Game of Tomes is a new competition for writers who participate in National Novel Writing Month and are regular Twitch viewers, or who enjoy participating in virtual write-ins with a competitive (but friendly!) spirit. Although it was designed by writer Twitch streamers who are part of the World Anvil community and the Anvilite Streamer Corps, it is open to any and all participants in NaNoWriMo.

Thanks for the support, Janet & Dimitris!

## The Conflict

### Prelude

2020 was a disastrous year on the third planet in the Sol system. As if the widespread political and social turmoil, and the vicissitudes of climate change weren't enough, a global pandemic known as Covid-19, a Coronavirus infection, forced most of the world into lockdown conditions. In response to the health risks of gathering in public spaces, NaNoWriMo headquarters informed their Municipal Liaisons, including Sable Aradia, that they would not be authorizing any in-person events for NaNoWriMo 2020. Fortunately, the ASC Wrimos had the benefit of the Anvilite community to gather with online. Inspired by the #NaNoHouseCup, which is masterminded and organized by Elayna Mae, a number of ASC writers who participate in NaNoWriMo agreed to pit their word counts against one another in a month-long winner-take-all battle for the Iron Tome. Sable Aradia of House Lapin laid the challenge, and six ASC Wrimos accepted her invitation.

---

### Deployment

The Game of Tomes is open to anyone doing NaNoWriMo who joins in participating streams and redeems their word counts, whether they are officially registered on the NaNoWriMo site or not. Each Wrimo assigns themselves to one of the great houses, depending upon inclination and habits as a writer, or just personal whim. Their word counts in the streams of participating streamers are counted towards the overall totals of their chosen house by selecting the appropriate channel point reward, marked by their house's banner as a Twitch emote, and entering their word count in the space one might typically type a "highlighted message".

NOTE: It is your total word count during participating streams that you should report with the Channel Point Rewards! It doesn't matter whether those word were accumulated during a sprint or not! If you prefer to write at a steady pace, just be sure to redeem your Channel Points in the stream in which those words were written.

Each individual writer might:

1. Swear their undying loyalty to a single house, if and until their house falls
2. Form or join a lesser house, which then gives its loyalty in turn to the banner of one of the great houses
3. Give their loyalty to one house, then later change their mind; and this may be done repeatedly
4. Function as a mercenary, either by joining and leaving houses at a whim, or by trying to win concessions from one of the other lesser or greater houses by offering their support

Participating Wrimos are considered to be part of the last house they served at the turn of the deadline, and will live or die with that house.

**Mercenaries**

It is contrary to the spirit of the competition to introduce any *real stakes*. Mercenaries may NOT sell their services for any *real* monetary value. However, mercenaries may ask for trade-in-kind, or for things with real value, such as bits and Twitch subscriptions, as long as their portion of the monetary value (ie. the portion of the subscription fee that isn't kept by Twitch) is going to a charity. Mercenaries may choose the charity they support or donate to NaNoWriMo or another charity supported by Game of Tomes streamers.

Nathalia Books, Varangian Guard by Nathalia Books

**Lesser Houses**

Participating Wrimos who do not lead a greater house may choose to form a lesser house instead. This includes both streamers and non-streamers. Lesser houses must REGISTER, using this form, prior to November 1st. That lesser house must "bend the knee" to one of the greater houses, on a temporary or extended basis. This must be done publicly on the Twitch stream of the house leader one is bending the knee to. A lesser house may change its allegiance at the beginning of each new elimination period -- and *only* at the beginning of each elimination period -- if desired. This must be indicated by a public bending of the knee, as above. A lesser house may only consist of one person. However, that one person, upon declaring themselves a house, is thereby bound to the rules of lesser houses. They may not change their minds and act as individuals later in the competition.
Registrations for Minor Houses in 2020 are now CLOSED. Thank you to everyone who signed up!

**The Undead Horde**

The Undead Horde begins with only the Night Monarch (leader of their "house"), but swells their ranks by taking a random third of each fallen house's strength, as described in Conditions. No one else may start as Undead.

---

## Battlefield

The battlefield for this conflict is in the Twitch write-in streams of participating streamers. Only the word count totals from live participating write-ins count towards the overall house totals. Individual word count totals acquired off-stream, or in non-participating write-ins, are not counted. Neither are word counts acquired by watching VODs after the streams have aired.

---

## Conditions

### Attrition

At the end of every five days, as calculated in UTC, the overall scores of the houses are tallied. The great house with the smallest overall word count is officially eliminated from the competition. This result will be announced on stream. In 2020, this will be on Erin Righ's stream "Write with Erin," which is the first participating stream to air after the turn of the day in UTC.

- **November 5:** 6th house eliminated
- **November 10th:** 5th house eliminated
- **November 15th:** 4th house eliminated
- **November 20th:** 3rd house eliminated
- **November 25th:** 2nd house eliminated
- **November 30th:** The Final Battle - last surviving house vs. the Undead Horde!

The Final Battle, unlike the other elimination periods, will not be tallied until NaNoWriMo has ended for ALL time zones.

### Undead

The names of the members of the eliminated house, and their bannermen, will be entered into a random name selector. One third of them will be drawn randomly to be drafted into the ranks of the Undead Horde. If they are drafted, they must represent the Horde for the remainder of the Game of Tomes. "Mercenaries" who shift their allegiances will be counted as being part of *the last house they joined* before the end of the elimination period. The members and bannermen of the eliminated house who survive the Undead Horde may then choose one of the surviving houses to represent instead.

### Dancing with Death

If a participating living Wrimo submits word counts to the Undead Horde, either accidentally or intentionally, the words they submitted disappear into the ether, and benefit neither a living house, nor the Horde. Further, that Wrimo is automatically submitted to the Undead Horde draft, since clearly, they were getting a little too close to zombies. They are not guaranteed admission into the ranks of the Undead.

### Bending the Knee

If a house leader -- whether they lead a lesser or a greater house -- survives the Horde, they must then appear on the stream of the leader of the new house they wish to serve to "bend the knee." This can be done with a live appearance, a chat conversation, the use of emojis, or any other method as appropriate to the stream and streamer. It is assumed that their house members will change their allegiance to the new house, but they are under no obligation to do so. A leader of a great house whose house falls may no longer display their original house banner on their streams, as their house is considered to have been destroyed. The leaders of lesser houses are not bound by this restriction. However, if the leader of a lesser house becomes part of the Undead Horde, their house is considered to be destroyed, and they must also take down their banner, and not display it on stream again for the duration of the Game. Alternatively, lesser and greater houses whose leaders are drafted into the Undead Horde may feature a corrupted version of their banner instead, displaying their allegiance to the Undead.

### Responsibilities of House Leaders

House leaders agree to tally the word count totals of their houses, and the Twitch names of the members of their house when eliminated, and report this information as detailed in The Engagement. The house leaders may not reveal the current totals at any time in public, on stream, Discord, or any form of social media, which allows "mercenary" play. The only time in which total word counts will be revealed is on the stream in which the next elimination is announced. Whether a house leader is the head of a major or minor house, the role of a house leader is to inspire and encourage their bannermen. This is all about fun and about helping each other to succeed. Lead by example, be there for your bannermen, and use positive reinforcement to make NaNoWriMo a success for them, and for you.

---

## The Engagement

Any Twitch Affiliate Wrimo may host the Game of Tomes on their streams, and participate in the competition themselves. Please REGISTER using this form prior to November 1st.

Registrations for participating Twitch streamers for 2020 are now CLOSED. Thank you so much to everyone who signed up!
Streamers who wish to participate will find the necessary info and resources here:

**Game of Tomes - Point Reporting and Points Setup**

Generic article | Nov 3, 2020

**Game of Tomes Image Resources**

Generic article | Oct 30, 2020

- Great house leaders should report the total word counts accumulated in their streams using this form.

- Other streamers, whether they lead a lesser house or not, should report total word counts from their streams using this form. (Note that the form will not be accessible until the start of the Game.)
- When reporting results for a minor house, add the total to BOTH the field for the minor house AND the field for the major house.

Included in the reporting forms is a link to upload screenshots of the channel point Rewards Queue, which can be accessed from the channel points rewards page, as instructed in the above article. The results will be tallied in a spreadsheet. If a minor house leader is not a Twitch Affiliate, or is not a streamer, they will only be able to count the words accumulated in other participating streams. Our system doesn't work otherwise. However, this is a very supportive community. Announce that you'd like to reach Affiliate so that you can help organize the Game of Tomes, and let one of the great house leaders know, and we're sure it won't take long!

**Reporting for Lesser Houses Lead by Streamers**

1. Ideally, it would be easiest if a lesser house decides to directly report their results as if they were part of the great house they have bent the knee to. Since the text field in which word counts are submitted during the stream can contain any text, they may also keep track of their lesser house totals separately by typing the name of the lesser house in the text field, long with their word counts for the sprint (ie. "301 Sauropoda," "205 Kitsune.")

2. If, however, a lesser house leader wishes to create a channel point reward for their own house on their own channel, they agree to keep track of which of the greater houses those points will be counted towards, and to indicate this on the screenshot reporting graphic. They also agree to keep track of, and communicate to the great house leaders, which participants are part of their house. If mistakes are made, unattached word counts will simply not be counted, and unattached names are automatically submitted to the random name picker for possible draft into the Undead Horde.

Thank you very much to Bob O'Brien for creating this excellent tutorial video! ***Note:*** *If you'd prefer to use a calculator to record results rather than the spreadsheets, that is fine; the key is reporting with the reporting form, including the screenshots*

**Remember, this is a Game**

Although this event is designed to get the competitive juices flowing to inspire greater word counts, it is meant to be a *friendly* competition. There are no real stakes involved. There are no prizes or punishments for success or failure. Our hope is that participants will encourage and support one another, and any rivalries will be all in good fun. Put simply, anyone being a jerk may be banned from participating in the event by a consensus of the leaders of the great houses, who are also the event organizers.

---

### Outcome

We hope that the Game of Tomes will make NaNoWriMo more fun and more effective for all participants! Good luck, and happy writing!

Final results will be announced live on stream on Sable Aradia & Erin Righ's Twitch channel on December 1, 2020, at 9pm UTC.

### Aftermath

Success and partial success in NaNoWriMo has helped thousands of writers all over the world to achieve their dreams, boost their self-confidence, and celebrate their joy in writing. We hope the Game of Tomes will contribute to that in a positive way!

DaniAdventures rose again as The Queen Zombee. She and Serukis the Zombee promptly began to terrorize the living with their impressive word counts. Bob O'Brien and House Sauropoda fled to the arms of House Avis, and bent the knee to the Feathered Prinx the same day.

House Sauropoda leader RPGDinosaurBob Bob O'Brien, now known as RIPDinosaurBob or FossilBog and the Feathered Prinx themself, Cryssalia Noire, now known as Corpsalia the Plague Penguin, were both consumed by the Horde as well. Their epic word counts considerably increased the strength of the Undead considerably. House Caepaire and House Arensborg both fled to House Mollusca. The fate of House Tenebrus remains unknown.

**Casualties**

House Chiroptera was defeated on November 15, 2020, at a total of 187,601 words. Siobhan the Writer Brianna Healey, Queen of the Night, was the first to fall to the Undead Horde, to rise again as Queen of the Nite. Moonflower, LizaGrimm, and Caliope7 were also taken by the Horde. A pitched battle ensued! Siobhan the Queen of the Nite proved to be more of a menace as the Undead. She and Dazzlicorpse pursued Lord Galakrond, Realm of Music, DMStretch, and Nathalia Books with pitched ferocity. Pizza, chocolate, and the corpses of racoons and pigs were thrown as distractions, and many axes were brandished. But in the end, the living who were not already claimed escaped. House Ceapaire and House Varangia scattered in different directions. House Ceapaire swore their toast to House Avis, and House Varangia swore their axes to House Lapin.

**Objectives**

To accumulate life (words) while everyone else is asleep, gather a great cauldron of bats, and use these combined resources to seize the Iron Tome!

**House Lapin**

### Lesser Houses in Service to the Lapin Banner:

- House Arakknis - Led by Kalghidorah
- House Chariste - Led by Rabidcandyvoid
- House Varangia - Led by DMStretch (as of November 15, 2020)

**Casualties**

House Lapin was defeated on November 25, 2020, at a total of 494,222 words. House regulars PrideAscending, Xantos the Great, p2poo2, Mirabaar, and Kitoypoy fell to the Undead Horde. Kalgidorah, leader of House Arraknis, was also embraced by the Undead, as was respected Varangian mercenary NathaliaBooks, who sacrificed herself to save her Captain and House Leader, and confused mercenaries MagikBeyondYourKen and Esongbird24601.

Unlike every other major house leader, Sable Aradia survived the battle and fled to the sea, to bend her knee to the Kraken, CoffeeQuills of House Mollusca, earning the epithets "Sable Bright-Eyes" and "The Queen Who Knelt". The fate of House Chariste remains unknown.

**Objectives**

To amass their forces and take the Iron Tome through sheer numbers!

### Lesser Houses in Service to the Meles Banner:

- House Kitsune - Led by Shy Red Fox

**Casualties**

The clan of House Meles was defeated on November 10, 2020, with a total of 86,557 words. This close but disastrous defeat resulted in both Nikolas Fenmorielle and Meles' loyal banner, Amy Winters-Voss, leader of House Kitsune, rising again as Undead. Lich Nikolas and ShyDeadFox quickly became a menace to the living. The battle also claimed the life of the mercenary Dazzlikat, who rose again as a zombie as well. The scattered members of House Meles and House Kitsune, bereft of both of their leaders, were left to eke out their existence with new houses as best as they could. Lord Galakrond, scion of House Meles, and Realm of Music, Lich Nikolas' widower, fled to House Chiroptera, only to once again be forced into flight when Chiroptera was destroyed on November 15, 2020.

**Objectives**

To dig their way through the plot holes, and fight steadily and aggressively to claim the Iron Tome!

**House Mollusca**

**Led by**

**Strength**

**Coffee Quills**

The Kraken, The Thing That Should Not Be, The Cosmic Kraken
*They/Them*

House Mollusca by DaniAdventures/SableAradia

### Lesser Houses in Service to the Mollusca Banner:

- House Arensborg - Led by Dhelian (as of November 25, 2020)
- House Ceapaire - Led by Isaac A. Thompson (until November 5, 2020)
- House Negmaw - Led by Sodose26

**Casualties**

House Ceapaire changed their allegiance to House Chiroptera on November 5, 2020. TheOtherJoshArt of House Mollusca was caught in the holdings of House Chiroptera on November 15, 2020, and consumed by the Undead Horde. House Arensborg changed their allegiance to House Mollusca, to continue to fight for the living, on November 25, 2020. The Kraken accepted the allegiance of the survivors of House Lapin on November 25, 2020, when Diane Morrison bent the knee.

**Objectives**

To have so many tentacles grabbing for the Iron Tome that nobody else can touch it!

**Undead Horde**

**Led by**

**Strength**

**The Nite King, Erin Righ - see Sable Aradia**

*He/Him*

Undead Horde by DaniAdventures/SableAradia

**Objectives**

To plod on steadily with their ever-growing army of undead Wrimos, slay the living en masse, and deny anyone else the Iron Tome through raw attrition!

# How to Create Your ASC Member Profile

## Set the RPG System to Include 'Generic'

Do you have any RPG systems active? You'll need the Generic [Generic Blocks Only] system active on one of your worlds. Pick a world, go to configure and set the system near the bottom of the 'Homepage' tab.

## ASC Profile Block

Go here and make a copy of the ASC PROFILE SAMPLE block. [block:468604] <- link to the block, so if you see more than one with the same name you know which one you need. (Sometimes people leave the name for thier member profile blocks.)

Fill it out. If there's anything that doesn't apply to you (a YouTube channel, discord, merchandise, etc.) leave that blank.

## Your Google Calendar

When you get to the part about the Google Calendar, go to your google calendar(s) for your streaming events and click on the vertical dot menu for your stream calendar. (if you have more than one - just pick one for now. It doesn't matter which one.)

Go to 'Settings and Sharing'.

Then click 'Integrate Calendar'.

Pick 'Customize'.

Unclick the border box, and set the display to week (or your choice). Then ensure you ONLY have your streaming calendar(s) checked.

The default main calendar color always seems to be blue, even if your calendar is a different color. (Why? No clue.) So if you want to change your calendar colors do that now. It's your calendar. Use the colors you like.

Then copy the iframe code at the top.

Paste that code into a text editor. Copy the URL from the code

```
1 <iframe
  src="https://calendar.google.com/calendar/embed?height=600&amp;wkst=1&amp;b
  amp;ctz=America%2FChicago&amp;src=YmNjNTlyODhhbnZzZDFhdXY2dWxqOW5nYnNAZ3JvdX
  9vZ2xlLmNvbQ&amp;src=cWRzdGw0NWY4a3JvbmZyaWNjZWNmN245djhAZ3JvdXAuY2FsZW5kYX
  amp;color=%23af6020&amp;color=%239E69AF&amp;mode=WEEK" style="border-width:
  height="600" frameborder="0" scrolling="no"></iframe>
```

And paste that into the google calendar URL form box on your profile statblock.

## Save!

Save your changes and view the sheet. Make sure your info is correct. (You can always go back and update the sheet if something changes. This statblock is how you'll be in control of your profile.)

## Send Us the Info For Your Profile

Fill out this Google Form with the following:

- Your Discord ID (so we can DM you that the profile page is ready)
- The URL of your WA author page
- The URL for the view of the statblock. It will look like this:

```
https://www.worldanvil.com/sheet/123456/view
```

That's it! We'll let you know via Discord DM when your profile is live.

## Use Your Block Beyond the ASC Member Profile Page

You can put the block you've created anywhere you like, even in your author profile page. (Though for the author profile page we currently only recommend the badge version as described below. - 08/15/2020)

## Using the Badge/Card Version of Your Profile

You also have a mini version of the Streamer profile for easy sharing of your profile. Just paste your block bbcode and add '|badge' in front of the '}'. For example:

```
[block:123456|badge]
```

It's great to pop into your WA author profile like so:

Please note: **This badge uses the TITLE of your statblock.** (I had to rename mine so it looked ok.)

## HELP! I Need to Update My Member Profile Statblock!

It's stored with your statblocks which are:

And under one of these two tabs. The 'Type' will be 'Streamer/Broadcaster Profile'.

When you find it, click on the wrench button and make those updates!

# {ADMIN} How to Create a Member Profile

## Creating the Profile Page

When members fill out the profile statblock link and the link to their profile, they'll send the information to us via a google form. Ensure you're looking at the 'Individual' tab. (Sometimes the info will get DMed or emailed to us too.) Go to the 'Dashboard' page on the ASC world author view. And click the button at the top that says 'ASC MEMBER - (USER NAME)' for the profile template.

Copy the user name and block number from the member's info. If the name has a space in it - take out the %20

Paste those over the 'USERNAME' and 'YYYYYY'. Type 'ASC Member - ' and paste their WA user name in the title.

Under the 'Navigation' tab - set the category to 'Members'. Under the 'Preferences' tab - uncheck the allow comments box. Uncheck the 'This is a Draft' and 'This article is in Progress (WIP)'. Save. View the article to ensure it looks right. Delete the individual member profile submission after you verify the page. (Google forms doesn't use an editable spreadsheet for the form data anymore that I can find. So the responses are our queue and we'll delete them when done.)

Ping the member in the #anvilite-streamers-corps channel that thier page is live.

## FAQ

What if I can't view the statblock link?
That's ok. We just need the number. The statblock should show up on the profile page.

What if the member wants to update their profile?
They own and control the statblock. So they just need to update it.

# ASC Takeover Stream Notes

## WHAT IS THE ASC?

Streamers who are fans of WA
- https://www.worldanvil.com/w/anvilite-streamers-corps

## HOW DID IT START?

* Summer Camp calendar
- https://www.worldanvil.com/w/anvilite-streamers-corps#calendar

## HOW DO I JOIN?

https://www.worldanvil.com/w/anvilite-streamers-corps/a/applying-to-the-asc-article
* We have a code of conduct that we expect our streamers to follow + a few requirements - though we try to keep them simple.
- Have a WA account for at least a month with an active world.
- Be on the WA discord
- Have WA content in your streams. (Especially anything on the blue calendar that is announced on the WA discord, those can't have competitive software. We do have some people who also stream PC games and such. But some of the content you stream has to be WA)
- If you're a brand new streamer stream a bit and reach out to us. Secondhand Samurai#3947 hands out the Streamer role. Then you can apply.
- Your content has to be allowable on your platform.

## WHAT IF I JUST WANT TO TRY STREAMING?

- DM ShyRedFox
- We want to support the newbies too!
- you can Try then Apply!

## WHAT IS THIS "RAID" THING?

- share the hype with other streams
- showing our audiences new streams
- benefits everyone!

## WHAT CAN THE ASC OFFER STREAMERS?

- support! much in common
- help each other reach affiliate status and catch each other's streams.
- get on the calendar
- a profile page
- Events - we work great in groups and can keep the hype going

## WHAT IF I DON’T STREAM?

- plenty of streams
- join to add to more worldbuilding, RPG, writing, art, and whatever else you need more of in your day!

https://www.worldanvil.com/w/anvilite-streamers-corps#calendar

- Blue button to see the calendar in your own timezone.

# ASC Officers meeting: 18 August 2020

**Attendees**

- ShyRedFox
- Laurabones
- Lyraine Alei
- Heffe
- Timepool
- Sable Aradia
- KahunaTheElder
- ZogMadDog
- SecondhandSamurai

**Topics tabled for discussion**

1. Calendar restructuring
2. Map options for DST (daylight savings time)
3. Formatting the ASC Calendar
4. Wording for commiting ASC to events
5. ASC events updates
6. ASC site theme updates

**Review**

1. Our current calendar is becoming clunky due to the number of streamers that have joined the ASC. We also need a way to separate WA announceable streams from all the other awesome stuff our streamers do. Two options were put forward to test for viability and ease of set-up / use. It was decided that the officers would try out both these options in a test environment and then make a decision at the next meeting. Topic tabled for next meeting. 2. Due to the fact that not all countries / regions observe DST it would be a lot of work for little benefit to accomodate for this on our streamer world map. It was agreed that a simple addendum to the top of the streamer map would suffice. The following line to be added to the top of the map *"If your area is observing DST, please add 1 hour to your current time zone."*.Topic closed for discussion. 3. A discussion on the colour coding and formatting of the calendars for different stream categories took place. It was decided that what we have currently is working for now, however Timepool and ShyRedFox would look into other options if this ceased to be the case in the future. Topic on hold, to be raised again in the future if needed. 4. A discussion was had on the wording for the involvement of the ASC in events that our streamers may like to run in the future. An appropriate and more official wording was settled upon, announcement update pending. Topic closed for discussion. 5. Heffe put forward a sample events page and ideas for an events calendar. A number of proposals were put forward on how to handle sign up for events. Laurabones volunteered to help manage the sign-up process. Topic ongoing, pending futher updates from Heffe as he works on this project. 6. Timepool updated us on their progress on the ASC site page theme, including fonts, colour scheme, and logo options. It is looking super slick so far. Watch this space!! Topic ongoing, pending futher updates from Timepool as they work on this project.

**Streamlabs OBS**

Alpha Gamer
The Video Nerd

## When You Reach Affiliate Level on Twitch

Dani was kind enough to put together a tutorial on what to do to make the most of your new Twitch affiliate status. Secondhand shared the instruction page for how to connect twitch and your discord server.

## Stream Resources

#### Sprint Timer

A lot of streamers like to do word sprints or otherwise timed, focused periods of work. Nikolas Fenmorielle has created a greenscreen sprint timer for your use, which you can find on the ASC Community Image Resources page. Or, if you want to make your own, he has kindly created a tutorial for you!

## Keep Up with the ASC Network Happenings

#### Github

Our tracker for our to-do/ideas list (and eventually a place to store resource files that WA can't host - like sound bytes, etc.). You can see what we are working on And what's in the works.

#### ASC Community Discords

(Not personal ones - those are on your profile pages.) World Anvil has an amazing and supportive community that I hope our Network will emulate. They have kindly opened up two channels on their server for streamers. #Summer-Camp-Streamers channel (for summer camp streaming and planning) and #anvil-streams (for streaming announcements) and #streamers-corps for our group chat, news, coordination, etc.

## Community Updates

We're working out how to notify people of anything new.

- We'll post to the ASC Network Updates page and notify followers of that. It will also post in the #streamers-corps channel. And *soon* we should have those updates filtering through our social media accounts.

# Stream Safe Music

With all the DMCA hoopla on Twitch, we thought it would be good to start a list of stream safe music options. Please verify what the usage requirements for each are before using them. ;) Many YouTube music makers and promoters, just want recognition in the description of the video for their work.

If you are unsure of what is best for your channel, here's a link to Devin Nash's DMCA Resource List that may help.

## Recommendations from Susanne Lamprecht

- Darren Curtis Music
- Stream Beats by Harris Heller
- Royalty Free Music
- Free to Use Music
- Free Music Wave
- PaponeMusic

## Recommendations from Amy Winters-Voss

(also recommends StreamBeats)
- TabletopAudio (please get permission first and support his work - he has very easy to meet terms)
- Own3d.tv Music
- Myuu allows his uploaded work to be used with attribution.

## Recommenations from Cryssalia Noire

- Soundtrack by Twitch

# ASC Network Calendar Changes - Annoucement

## ASC NETWORK CALENDAR CHANGES ARE BEING ROLLED OUT

After considering member input on splitting the ASC calendar we chose a method that tries to incorporate all the needs and requests as best we can. So the ASC is simplifying our network calendar. A lot of thought and testing went into the decision. This is due to:

- there being some confusion about what is Announceable on the WA Server
- members brought up the fact that multiple calendar windows make it hard to see our group as a whole
- the calendar loading ridiculously slow (because our calendar is a compilation of 50+ calendars loading)

- the fact that we are approaching the character limit for the Google calendar API

The last two reasons were the reason we HAD to change, but the first two reasons rolled in nicely. Having one combined calendar like this with two calendar options will allow us to show our diversity in interests and allow non WA software on the All Inclusive stream list.

## THE BIG CHANGE

Instead of inviting the ASC calendar to see your streaming calendar, we'll need you to invite one of the 2 ASC calendars "WA Announceable" and "All Inclusive" to your individual streaming listings. (Directions below)

## THE LOOK OF THE ASC NETWORK PAGE

There will be 2 main colors for the calendar "WA Announceable" (blue) and "All Inclusive" (purple). The WA stream will be in red and the ASC calendars in greens. See the updated calendar here.

## HOW TO UPDATE YOUR STREAMING CALENDAR

I apologize for the inconvenience. But we tested and tried various things to make this as painless as possible. It should take members about 10 minutes to do the change and be done with updating any existing events for your calendar. Directions for adding each of your streaming events to the calendars can be found here. My calendar is switched over - to be the example so you can see what the colors will look like.
PLEASE let us know if you encounter any issues. We'll be here to help get you transitioned over. Ask questions in the #streamers-corps channel on WA
These changes *should* make it so we don't need overhauls to the calendar again.

# {ADMIN} How to Add a Member's Calendar to the Network Calendar

## Notification and Viewing Access

Login to the wa.streamers(at)gmail.com account.  For each new member, you'll receive an email inviting you to view the member's Google calendar. Click on the link in the email. Google will open up the calendar for you.
I have to be logged in to Google as wa.streamers in a separate window. I can't be logged into my normal Google account and access and have Gmail open with the wa.streamers account active. It will STILL try to add the event to my own calendar.

**Color code the calendar as follows:**

Raddiccio (Red) for Worldbuilding
Orange for Tutorials
Grey (#717171) for uncategorized

**Verify the Calendar Information**

Make sure they have their WA/Discord name in the calendar name and events. And their streaming link should be in the description. If not, poke them to do this. (So we don't have 50 calendars all named "Streaming Calendar" and events all called "Worldbuilding Wednesday".)

Verify that their calendar is viewable by the public

## Updating the Public Network Calendar

For each new member sharing a calendar, we need to update the iframe code in the HTML/TWIG statblock template. But this can be done after adding a batch of the new member calendars. First we need the iframe code from Google calendar. Hover over the WA Streamers calendar name. Click the 3 dots, then 'Settings and Sharing'. From there, click on 'Integrate Calendar' and the 'Customize' button. Ensure the new member's calendar is in the list on the bottom left. Then click the copy button (the 2 overlapping squares) to copy the code.

Paste the iframe code into a text editor, and copy the URL for the calendars. The URL is HUGE.

```
<iframe src="https://calendar.google.com/calendar/embed?height=600&amp;wkst
                                                                          NvbQ&amp
                                                                          NvbQ&amp
                                                                          NvbQ&amp
                                                                          NvbQ&amp
                                                                          NvbQ&amp
                                                                          NvbQ&amp
                                                                          NvbQ&amp

Note: that if we hit a URL that is longer than ~8K characters (the maximum for the Google API), we'll have to split up the calendars.
Then we paste the URL into the statblock. The link is here -> '[Anvilite Streaming Corps Calendar OFFICAL]' calendar sheet.

Hit 'Save'. This will update the child block on the Network calendar page. Verify the calendar displays correctly on the Anvilite Streamers Corps homepage.

## Emergency: Loss of Statblock Access

If for some reason we lose access to the statblock - say the owner of the block has an emergency, or we accidentally delete the block (which I did once - lol). A new one can easily be created. Go to 'Studio'->'Sheets & Blocks' and click on 'Create a new Generic [Generic Blocks Only] Sheet' button. (The world has to have the RPG system set to have the Generic Blocks added to the world to have that button appear, btw. It *should* always be setup that way - but in case someone accidentally unsets it, you'll know what to set.)

Give it a logical name. And create the template.

We need one variable- the URL for the google calendar list. Add a variable, make it required, and fill it out to be like the one in the red box - with the EXACT SAME VARIABLE NAME. (I'm not yelling - the code I share later won't work if it's not spelled exactly the same.)

So just click on the 'Switch to Display Mode' button.

Ensure the Template Title has a logical name. I called my copy "Google Multi Cal Embedder". Copy the code from github. Then paste the code in the 'DISPLAY STRUCTURE (HTML/TWIG)' section

CURRENTLY IN:
**DISPLAY MODE**

Basic Sheet | Tracking Sheet | Badge Sheet | CSS | Edit Form

**TEMPLATE TITLE**

Google Multi Cal Embedder

**DISPLAY STRUCTURE (HTML/TWIG)**

```
<div class="google-multi-cal-display">
    {% if variables.url is defined %}

    <!-- DISPLAY THE NETWORK CALENDAR -->
    <h4>The ASC Network Calendar is in UTC</h4>
    <iframe src="{{ variables.url | raw }}" style="border: 0" width="100%" height="600" frameborder="0" scrolling="no"></iframe>

    <!-- now split it by 'ctz=Etc%2FGMT' and piece back together -->
    <!-- EXTRACT THE BASE PART OF THE STRING FROM THE CALENDAR URL -->
    {% set url_minus_tz = variables.url|split('&amp;ctz=Etc%2FGMT') %}
    <!-- CHANGE THE TIMEZONE TO DISPLAY IN THE URL -->
    <!-- UTC -->
    {% set utc = url_minus_tz[0]~'&ctz=Etc%2FGMT'~url_minus_tz[1] %}
    <!-- UTC+1 -->
    {% set utc_p1 = url_minus_tz[0]~'&ctz=Etc%2FGMT%2D1' %} {# Google seems to have GMT+1 and GMT-1 confused, so I am
using %2d (as minus) in the URL creation #}
    <!-- UTC+2 -->
    {% set utc_p2 = url_minus_tz[0]~'&ctz=Etc%2FGMT%2D2'~url_minus_tz[1] %}
    <!-- UTC+3 -->
    {% set utc_p3 = url_minus_tz[0]~'&ctz=Etc%2FGMT%2D3'~url_minus_tz[1] %}
    <!-- UTC+4 -->
    {% set utc_p4 = url_minus_tz[0]~'&ctz=Etc%2FGMT%2D4'~url_minus_tz[1] %}
    <!-- UTC+5 -->
```

Click the 'Save Changes' button. Then click the green '+' button to create a statblock from the template. Then you'll be taken to a page like this. Give it a logical Name.

Paste in the URL that is in the iframe code. (That you can get in the instructions above.)

```
1  <iframe src="https://calendar.google.com/calendar/embed?height=600&amp;wkst
                                                                            NvbQ&amp
                                                                            NvbQ&amp
                                                                            NvbQ&amp
                                                                            NvbQ&amp

Click Save Chages. Then click 'View Sheet'. If the calendar looks correct, copy the statblock bbcode. (Not the big green Copy button, but the little clipboard by the Bbcode tag that says [block:123456] (with the actual block number, not my made up sample one).

Paste it into the Anvilite Streamers Corps world configuration Full Width Column. (Leave a comment there too so you know what it is and don't have to look it up later.)

Save the world configuration. And verify it looks right on the Anvilite Streamers Corps homepage. And wa-lah! Done.

# NaNoWriMo

> National Novel Writing Month (NaNoWriMo, or just NaNo for short) is a fun, seat-of-your-pants approach to creative writing.
> — NaNoWriMo

NaNoWriMo is an event which challenges you, and authors, and well, everyone; to write a 50,000 word Novel in the month of November. "50,000!?" I hear you scream, and yes, 50,000.

It is a grand challenge which occurs every year during the month of November. However, there are events before this 'grand finale' which should help you prepare!

Starting from September 13th, 'NaNo Prep' begins, where each week we're given tasks to help us get ready. Check the NaNo Prep section for information or visit the NaNo Prep Website.

# Adding Your Streaming Events to the ASC Network Calendar

## Let's See If We Can Hit 24 Hour Coverage!

It would be great if you can help fill out areas on the ASC Network calendar that don't have coverage. Coverage helps us raid, so we bring each other viewers. If you end up streaming at the same time as someone, perhaps you both/all can find a way to work together and perhaps feature each other or interview each other, instead of competing for viewers. Please know that we understand if you can't. We don't want you skipping sleep, or not eating, or anything like that to fill in the calendar gaps. Ok?

## Calendar Coverage

When we have coverage it helps us raid each other, so we can bring each other viewers. But we do not have fixed streaming slots and we do not require raiding each other. Anyone can stream at any time. Schedule sharing is only to enable collaboration. If you end up streaming at the same time as someone else, feel free to attempt collaboration (interviews, co-streams, etc.) but always ensure you and your chat are having fun! With the number of members we have (almost 60 as of this update), it is impossible to create a schedule with no overlap. Stream when you can. If you can fill in gaps, GREAT! But we know everyone has lives and schedules change. There is no pressure to stick to the schedule. Our purpose is to be supportive and inclusive, and never put the schedule ahead of our people. As a group we help bring viewers to each other, through raids and by bringing more content to Twtich and more attention to our topics. There will be some audience generated by WA and the ASC, but it is up to you to grow your audience. Our purpose is to be an additive effect for each other's streams. User and Community safety and happiness are the top priority. Harrassment has no place here.

> Building worlds. Building community. Building up people.
> — ASC Motto

If you need to cancel a stream, please just remove the item on your calendar, so it opens up the slot. Communicate with each other, so we can work with each other. We are all in this together.

Removing this section - as it is no longer needed

## The ASC Network is Moving to a Simplified Calendar System

Instead of our calendar subscribing to each members calendar (50+ at the time of this writing--which making loading the calendar very slow) we're moving to having members invite the appropriate calendar to your event, so it will automatically show up with no intervention from us. No more waiting for us to approve calendars to for the network. You will still have complete control over your events. And be able to separate them out into WA Announceable events and another category called All Inclusive (where any member's streams can be added--whether it be using software of your choice or video gaming, or whatever--as long as it's allowable by your streaming platform). There are a few more steps detailed below. But this gives you more control and allows for members to share all of their streams. It also allows you to have just one calendar for your streams.
**If you don't see your events on the Network calendar, please ensure that you converted your events to the new way of adding them. See the "Invite The Streamer Calendar" section for more info. (The TWO WEEK transition period has passed where we display both the old style calendar and the new one on the main calendar. The old way where we followed each individual's calendar, really slowed down the loading of the page and was quite a bit of work to maintain.)**
Please let us know when you have your stream events transitioned to the new calendar system by pinging Shyredfox in the #streamers-corps channel on the WA server or emailing us wa.streamers(at)gmail.com. Then we can remove our subscription to your calendar. The ASC Network calendar will load faster for each calendar we can unsubscribe. After the transition period, we will unsubscribe from all calendars (except the World Anvil streaming calendar).
If you have questions, we'll be happy to help you. We'd like to make this transition as painless as possible for everyone.

## Set Up Your Calendar

Create a Google calendar of only your streaming/broadcasting events. **Please your put your WA and or Discord name in it.** (Otherwise we'll have 50 calendars called 'Streaming Schedule'.) Go into your calendar's settings, by hovering over the name of the calendar. Click the 3 dots. Choose 'Settings and Sharing'.

Make the calendar available to the public where 'See all event details' is selected.

## Add Your Events

Put in **each** of your events: Your WA name (and streaming/broadcasting name if it's different)

- the link to your stream/channel (full url, please)
- a bit of what it's about in the description

## Invite the Streamer Calendar

Create or edit your event and invite the appropriate calendar to your event. If you have repeating events, only the first one needs to be changed, then you can say make the changes for the following events.

For WA Annouceable events, invite this calendar to your stream event.

```
47iskoav8341dvtld0l0bi1ss8(at)group.calendar.google.com
```

For everything else, invite the All Inclusive calendar to your stream event.

```
11drsl8tapsjs2ul577e1o1g2s(at)group.calendar.google.com
```

Please replace the (at) with a real at sign when you paste the calendar addresses in to your events. WA doesn't play nice with at signs.

**To make the process easier**

For future events, you can add the calendars to your Google Contacts. Click the '+ Create Contact' button and 'Create a Contact'. Fill in the calendar name and paste in the email (replacing the (at) with an actual at sign). Then save.

Now when you invite a WA calendar to your event, you can just type in part of the name and it will show in the list.

You don't have to worry about the mess of random letters and numbers of the calendar name again.

## The Magic

Once you invite the correct calendar to your stream events, they will show up on the Anvilite Streaming Corps Network calendar. You can edit them in your own calendar to your heart's content. To see any additions and changes refresh the page.

## Help - If Your Events Don't Show Up

Please try the following.

1. Ensure you added the item to the correct calendar. A mistype in the calendar address will keep your event from being added.
2. Refresh the calendar page.

3. If you are seeing an error message from Google that says "Your event can't be edited/updated," Google can be cranky as it tries to avoid spam on public calendars. Usually just waiting a few days works. (Let your calendar volunteers you if you need the event posted because it's happening soon, we'll help you get something posted.)
4. Contact one of the calendar volunteers, ShyRedFox and Kahuna.

## If You Need to Stop Streaming for a While

Just uninvite the calendars from your events. In an emergency you can contact the calendar coordinators and they will remove your events from the calendar. We know life happens.

## Upcoming Events

**ASC Members!** These events are for you to plan ahead of time (which I, Heffé recommend you do). Please make sure to follow the guidelines.

Here are the events which are enabled for you to get ready, and especially get **HYPED** for!

### What is this?

Throughout the year, there are many creative events and challenges. This page is to not only to tell you who is doing what so we can hype them up and support them, but it is also to let you know how to join in.

Remember, for the challenge events, you do not need to stream to take part! These calendars are for viewers to see who is on and ASC Members to organize their streams to avoid clashes and to raid/support each other.

Any questions, feel free to ask in the comments below; or ask me (Heffé) on Discord (you should be able to find me on the WA Discord)..

### IRONGORGE
### Hall of Fame

**EXCLUSIVELY for World Anvil's WorldEmber and Summer Camp challenges!**

Think you can stream everyday AND complete the challenge or will you become fodder for the **IRONGORGE**?

If you're up for the challenge, let Heffé know on **Discord**.

## Events Calendar

If you'd like to plan ahead, here are some events to look out for in the future. If you have any requests for an event, message me (Heffé) on Discord or comment below and we'll see what we can do!

# Events Streaming Guidelines

1. **Stick to your usual routine!** If you have your own schedule of regular streams, then continue to follow it! For those who don't, try to weave your way between them, or start regular streams. Just invite the Event Calendar to your current Google Calender Events.
   *I understand this can be easier for some than others, but being as regular as you can is recommended. This helps everyone; yourself, other streamers and your viewers!*

2. You **may** take part in more than one event, even if the events are on at the same time. However, only stream for **one** event at a time.
   *This is for your own sanity, our sanity, and most importantly the viewer's sanity; as they can understand what it is you're streaming and watch you.*

3. **Avoid clashing!** However, you **may** stream at the time as some one else **only if** you're streaming for a different event as them.
   *This allows for those who aren't taking part in one event, to stream for an event they are taking part in at the same time.*

4. If in doubt, ask in the comments or ideally in the WA Discord, in the #streamer-corps channel.
   *Seriously, we don't bite. Our goal (and especially mine, Heffé, as ASC Events Coordinator) is to help all of us. Communication is key!*

**Charon J Fox** I stream I write a weird fantasy setting

**Broadcast Topics**

RPG, worldbuilding, Q&A

**Channel Summary**

I alternate building on two different worlds: Lost Waves, a fantasy setting with influences from Arabian Nights and D&D; and Thorns, a modern horror setting. Both are intended for roleplaying and are thus very modular and has hooks to be interesting. I also allow viewers to contribute articles they want in the world by spending their stream points.

For those who wonder, Charon is pronounced with a K at the beginning. Unless you're fancy and know how to pronounce it in Greek.

Mondays 8 PM CET/CEST

Wednesdays 8 PM CET/CEST

Building the Thorns setting

# Moderating Your Stream and Community and How to Report Harassment

If you are dealing with harrassment, manipulation, and verbal abuse in streams. I am truly saddened to hear this. To date, we've dealt with very few issues. Most streamers beyond the annoying spam bots have been most excellent in our streams. But streams are public to the world and we will all come across people who will troll streams just to rile others up.

### It's YOUR Stream and Community

My hope is to encourage you as you deal with this issue. As a streamer, you have the right and responsibility to enforce your channel and community rules to keep your channel and other aspects of your community pleasant for everyone. This goes beyond Twitch or Youtube to Discord, Facebook, Tumblr etc. It's your rules there. We simply expect you to abide by the ASC code (under Our Values). We keep it rules light to ensure you have the flexibility needed. The ASC officers and fellow ASC members are happy to help you how we can. Today, we are making sure you know the tools that are available.

### Tools and Tips for Moderating

- Ensure your channel rules are clear and visible in the about section and the list of channel rules that twitch pops up when people enter chat.

- Ensure you have a mod bot.
- Ask a fellow ASC member or trusted member of your community to cover mod duties for you if you can't be there 100%. (Sprints, demos, and things like that may prevent you from keeping an eye on the chat) Ensure your mods are on the same page as you regarding your channel's policies.
- Get to know the /timeout, /ban, /clear, /slow, /block and /followers commands. You and your mods can also make private notes about the streamer to see what issues have popped up. Twitch has a page on managing harrassment that gives more details.
- Don't argue with the troll, it's the equivalent of feeding/encouraging them. They will demand answers, but you are not obligated to give answers. You don't have to be a doormat. Don't be afraid to protect your other viewers and community members.

### Reporting the Issue

- If you repeatedly have troubles with a viewer or ASC member or ban and block someone and they keep pestering you elsewhere, please let us (the ASC Officers) know. We now have an issue reporting form. We will do what we can to keep an eye out and help stop harassment.
- Also please report the issue to your community provider (Twitch, Youtube, Facebook).

### The Future

Our officers are discussing what other options we can provide. Know that we will do what we can. Harrassment has no place in the ASC. We don't expect you or your viewers/community to tolerate it.

# ASC FAQ

## The ASC Code

Our code is the heart of who we are as a group.

Building worlds. Building community. Building up people.

Our adherence to the code shows our character.

### The ASC Code

Our purpose is to help our fellow World Anvil streamers and producers. We grow together and have power in unity.

We support, coordinate, promote, raid each other on twitch (if you stream there or whatever your platform allows), etc. If you overlap with someone - raid or do a stream together sometime.

WA requests that we not stream at the same time they do.

**Our values:**

- We're a team. We support each other.
- We are kind, polite, and respectful of others.
- We don't speak badly of our members or other broadcasters.
- We don't do things to take away viewers from others.
- We mentor newbies and welcome them.
- We advertise for the network.
- We respect our viewers. It's one thing to have, say, a political opinion--quite another to put viewers down because they disagree, or to sexually harass someone. Harassment has no place in our community.
- Streaming makes us public figures, so we keep that in mind when we speak.
- World Anvil is the heart and lynchpin of our existence as streamers, so we consider this in how we represent them. They have listened to us and graciously allowed us a chapter like group, a fan community of sorts. We can't speak for them or overide their business interests.
- We follow our platform's Rules of Etiquette.
  Twitch Etiquette

## FAQ

Since we are a chapter-like fan group of streamers and broadcasters under World Anvil (WA) but not a part of the World Anvil business, here are some guidelines.

**Guidelines for Posting Events to the ASC Calendar and WA Server**

A few cases have been brought to ASC's attention where people are streaming non-World Anvil topics and software and posting it here on the WA server. Since we are a fan group of WA and yet some wish to stream non-WA topics, here is a summary that includes guidance we received from WA. **We will not restrict what you can stream, just what gets posted on the ASC Network calendar, the WA server, and promoted by WA.** If people repeatedly post streams to the WA server and ASC calendar that aren't WA related (as defined below), we will remove them from the ASC membership roster and their streamer role on the WA server will be removed. We are guests on WA's server and need to respect that they need to preserve WA interests. 1. Since this is WA's server, we can only post WA related streams to the WA server (the #anvil-streams channel, or anywhere else). ASC will follow this rule for the calendar. So our requirements have tightened. 2. By WA related streams we mean working on your world with WA, using WA for your writing*, making a map for your WA world**, art related to WA, the occasional RPG game based on a WA world, etc. * Since WA now includes writing software, please don't use other software in your streams for writing. If you use Scrivener for writing your book related to your WA world, but want to stream it there are two options.

- If you put the event on the ASC calendar, it should use WA software. (You can copy/paste into Scrivener, Google Docs, etc. later if needed). If you wish to copy and paste from WA into other software - please be discreet. (Don't say "I'm going to past this into Google Docs later". People don't have to know that level of detail. We also don't put down WA or direct people to non-WA software. Remember we are guests on thier server.)

-If you wish to stream with Scrivener (or another writing software that isn't on WA), please don't put the streaming even on the ASC calendar. ** WA does not include map making software, so you may use what you like. Should WA contain map making software in the future, mapping will follow the same rule as writing. 3. If you wish to stream non-WA related things, we have two ways to help you bring some attention for those streams. We will have at least one (maybe more) calendars below the main ASC Network calendar on the calendar page. Also, you will have your profile page calendar.

Ultimately, it is up to you to grow your audience.

These are the expectations we need to follow for any ASC Network events posted to the calendar or shared on the WA server. For now your member profile can contain any non-ASC Network events. Directions for setting up multiple calendars are on the How to Create Your ASC Member Profile page. As stated in point 3 - we will have a secondary calendar. But the calendar system as a whole is being re-looked at. We'll have the secondary calendar or calendars soon. Here's what we expect that to look like.

**How We Work**

We are a group focused on growing and mentoring new ASC members and supporting each other as streamers and broadcasters. The ASC cannot be used as a means to simply increase a streamer's following. We are an 'all for one and one for all' group and work together.

**Finding the ASC Around the Web**

Our official home is on our WA page and in the #streamers-corps (channel is open to members only). We also have a Twitter and Facbook page. You can also reach us via email (wa.streamers (at) gmail.com).

**Working with the ASC**

Official ASC involvement in events must be approved by a vote of the ASC officers.

# Applying to the ASC

We want to be as welcoming and open a group as possible. We have a few requirements, just to make sure the group's goals are met and that we don't have people using the ASC only for the calendar and not giving back to the group or supporting World Anvil.

### The ASC Code

Our purpose is to help our fellow World Anvil streamers and producers. We grow together and have power in unity.

We support, coordinate, promote, raid each other on twitch (if you stream there or whatever your platform allows), etc. If you overlap with someone - raid or do a stream together sometime.

WA requests that we not stream at the same time they do.

**Our values:**

- We're a team. We support each other.
- We are kind, polite, and respectful of others.
- We don't speak badly of our members or other broadcasters.
- We don't do things to take away viewers from others.
- We mentor newbies and welcome them.
- We advertise for the network.
- We respect our viewers. It’s one thing to have, say, a political opinion--quite another to put viewers down because they disagree, or to sexually harass someone. Harassment has no place in our community.
- Streaming makes us public figures, so we keep that in mind when we speak.
- World Anvil is the heart and lynchpin of our existence as streamers, so we consider this in how we represent them. They have listened to us and graciously allowed us a chapter like group, a fan community of sorts. We can't speak for them or overide their business interests.
- We follow our platform's Rules of Etiquette.
  Twitch Etiquette

If you run into problems, contact one of the admin.

## Requirements and application for Anvilite Streamers Corps:

- Have a World Anvil account for at least 1 month. (This is to avoid people creating an account to use our signal boosting, then leaving. See ** below if you have an account younger than 1 month.)
- Have an active world. We'll be checking new profiles. If you haven't updated anything on World Anvil for more than 2 months, please make an effort to do so. (We understand things like emergencies, major book edits, kick starters, etc. happen and take alot of time. We won't delete your calendar on our side, just hide it until you are active again. Though exceptions can be made on a case-by-case basis. Please talk to us for this.)
- Be a member of the World Anvil Discord
- You must have World Anvil content in your streams. (This can be things such as working on your world, making a map for your world - and referencing back to WA for names and other things, writing a story related to your world - and referencing WA for things in it, etc. But let people know how it relates to World Anvil.) We work alongside them and wish to share the goodness of the worldbuilding platform. Secondhand Samurai#3947 will be verifying content, since we are under the WA umbrella now. You can ask him to verify before applying to speed up the process. This section was updated 7/29/2020 and we will be announcing a deadline for compliance. Please add an alternative calendar to your profile for non WA related streams. This way you can share about these other streams, but not clutter up the WA calendar. It's getting very full! Directions are for including them in a second calendar on your profile are availabe at How to Create Your ASC Member Profile
- If you're a brand new streamer please start streaming WA related content, and check with Secondhand Samurai#3947 if you don't already have the Streamers role.
- Your content must be allowable on the platform you stream or broadcast on. Familiarize yourself with the platform's requirements.

If we need to add more details to these requirements - the membership will decide on the update to the requirement.

**NOTE FOR NEWBIE STREAMERS ON TWITCH:**

Please know that members will try 'raid' you when they can. This is a good thing. It will bring you viewers and likely followers. Please be gracious and thank them for the raid and for coming. The raiding streamer didn't have to raid you and share their viewership with you. Yes, it interrupts what you are doing, but it really is a benefit in the long run! It's part of how we support each other. If you'd like to learn more, check out this video.

**NOTE FOR PEOPLE STREAMING MUSIC:**

Please use non copyrighted music in your streams. The DMCA can mute your stream. So look into options like the NCS channel on Youtube or https://www.pretzel.rocks/ for your streams. Also note where your music was from in your credits. This is to protect your streaming/broadcasting channels.

**** NOTE FOR NEW ANVILITES NOT ABLE TO APPLY QUITE YET ****

## How Long Will It Take For My Membership to Be Reviewed?

We are volunteers. Sometimes we may be super quick about getting this done. Sometimes it might take a little longer. Our goal at this point is to process membership about once a day.
