Anvilite Streamers Corps

Created by Amy Winters-Voss Harry Hartzog Garrett Lewis Lyraine Alei Laura Renwick Secondhand Diane Morrison Kahuna The Elder Heffé

Thanks for visiting the ASC Network!

We are a community for the World Anvilites who do internet streaming, broadcasting, podcasts, etc. - on Twitch, Youtube, and other outlets to share information, our streams, calendars, to support each other and work together.

> Building worlds. Building community. Building up people.
> — ASC Motto

Our code is the heart of who we are as a group. Our adherence to it shows our character.

The ASC Code

Our purpose is to help our fellow World Anvil streamers and producers. We grow together and have power in unity.

We support, coordinate, promote, raid each other on twitch (if you stream there or whatever your platform allows), etc. If you overlap with someone - raid or do a stream together sometime.

WA requests that we not stream at the same time they do.

Our values:

- We're a team. We support each other.
- We are kind, polite, and respectful of others.
- We don't speak badly of our members or other broadcasters.
- We don't do things to take away viewers from others.
- We mentor newbies and welcome them.
- We advertise for the network.
- We respect our viewers. It’s one thing to have, say, a political opinion--quite another to put viewers down because they disagree, or to sexually harass someone. Harassment has no place in our community.
- Streaming makes us public figures, so we keep that in mind when we speak.
- World Anvil is the heart and lynchpin of our existence as streamers, so we consider this in how we represent them. They have listened to us and graciously allowed us a chapter like group, a fan community of sorts. We can't speak for them or overide their business interests.
- We follow our platform's Rules of Etiquette.
  Twitch Etiquette

Keep Up to Date with the ASC

GDPR - General Data Protection Regulation

Introduction

The Anvilite Streamers Corps (ASC) takes your privacy and the security of what little we collect seriously. The information you share with us allows us to verify you meet the simple requirements we have for joining. We will occasionally verify that you still meet the requirements.

Principles for Processing Personal Data and Who We Share Personal Data With

User privacy and data protection are your right.

Taking those rights seriously is important to us.

This is why we only keep a bare minimum of data, and do our best to ensure things like your streaming calendar and your member profile page are under your control.

We will not share your information, with the exception of the requirements to share it with World Anvil for the purposes of maintaining our 'Corps' group status, for reporting member issues if we ourselves are unable to deal with the issue and World Anvil can, or if we are legally required to do so.

Types of Personal Data We Collect and How It is Processed

What we collect is for membership purposes and stored in a spreadsheet available for officers only to view. This includes:

- Your Discord ID (So we can contact you for things like when your calendar is added to the network calendar, when your membership profile is posted, and to add you to the Corps role of members in the World Anvil discord.)
- Your email address (So we know where to expec the google calendar invites to come from and for an alternative option to contact you for ASC business. Sometimes people get banned from Discord, so this allows communication.)
- Your World Anvil author profile address (so we can verify you are an active member)
- Your streaming links (so we can verify you stream in those places and help provide opportunities for people to find your streams)
- The date you started on World Anvil (so we can verfiy you have been a member for the minimum amount of time required as set in our application page)
- The last date of update on World Anvil (so we can verify you are active on World Anvil)
- Discord conversations (checked but not stored - so we can verify you haven't been abusive to others on World Anvil)

Legal Basis

The legal basis for which we collect this data is based on consent, since you provide it to be a member of the ASC.

Retention of Personal Data

We will retain your record as long as you are a member. Should you leave the ASC, we will delete your data.

International Transfers of Personal Data

Since our membership is International and World Anvil may not be located in your country, please be advised that your data may be accessed internationally by our ASC officers and/or World Anvil.

Data Rights

Should you wish to access a copy of make a correction to, or erase your data email us at wa.streamers (at) gmail.com. Please note that if you choose to have your data erased, it will mean termination of your membership with us because we won't be able to verify membership details once we delete the data.

ASC Member - Cryssalia

Cryssalia Noire

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile. (The white button above.)

Broadcast Topics

various, Gaming, Books, Food, Philosophy

Channel Summary

Cryssalia does almost a daily streaming with one or two days off. The majority of the streams are focused on article building with the sides of drawing. Their topic varies from daily lives to jokes or worldbuilding. Each day's topic depends on the day or their mood, but generally:

Worldbuilding Wednesday: Wednesday is a good day to world build. Cryssalia will attempt to world build certain aspects of their world, and play around with the CSS.

Frolicking Friday: Just before the World Anvil's official live stream, there will be a chill stream of art and discussion. Cryssalia loves to offer her input in life and art with their viewers.

Subtle Sunday: A mainly note-taking session for their worlds and stories, Cryssalia keeps their notes close and accessible for easy reference.

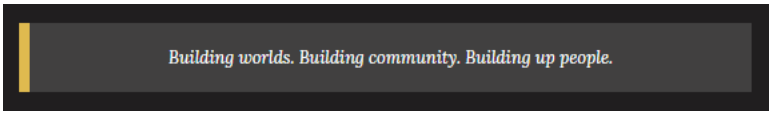
Anvilite Streamers Corps Network - A Gathering of Likeminded Souls

What is the ASC?

We're a community of World Anvilites who do internet streaming, broadcasting, podcasts, etc. - on Twitch, Youtube, and other outlets to share information, our streams, calendars, support each other and work together.

Esongbird24601 suggested our motto, and it really fits.



ASC Motto

How Did it Start?

The Anvilite Streamers Corps began humbly, when I was helping the streamers in Qurilion's Happy Sun Lodge Discord server and my own server for our joint Summer Camp party. We wanted to support each streamer and catch each all the broadcasts. The little group even gave me the courage to start broadcasting too.

I needed a visual of the schedule because the list of text got confusing fast. So we created a Google calendar. Word got around and people asked to be added to the calendar and it needed a home. It outgrew my ability to manage it and people on the calender said, "Hey let's make a network!" and "We'll help!" in the true World Anvil spirit. We just needed a way to stay organized and make the calendar management feasible for a sizeable group.

Thus the ASC Network was born. Kahuna The Elder helped me test out ways to help the streamers have control over their calendar events and helps manage the calendar. He also designed our logo. DaniAdventures made recruitment posters. Secondhand Samurai jumped in to support us and give guidance. Zogmaddog took up the membership for us. Sable Aradia and Laurabones spearheaded the social media side. Timepool offered to help with the site and will make us our own theme. Heffe volunteered to help with events. And Lyraine Alei has been our head cheerleader.

ASC Calendar

Our network, which isn't even a month old, has grown beyond any hopes I had. The support from everyone has been amazing. Many members are already at affiliate level thanks to YOU - the wonderful World Anvil community. We're up to almost 30 members at the writing of this article. And I swear I see new streamers brave pushing that "Go Live" button each day.

2020 may have sucked badly on many fronts, but seeing the ASC come together and help people with their prompts and articles, teach people how to do CSS, and so many other amazing things -- it brings me to tears in gratitude and pride to be a part of it.

What's new for ASC?

Members have complete control of their calendars. So once your calendar is added, any updates or additions will auto-magically show on the network calendar on our network home page.

We recently posted the little blue dropdown menu under the calendar that allows everyone to view the calendar in their own time zone. The need for this was obvious right after we posted the calendar and people were saying things like "Oh, the calendar isn't in my time zone. How do I figure out what time it is?" or "Darn I missed that stream because I goofed on the time." That the push that lead me into playing with statblock templates and the Google calendar API. So, I hope it helps you as much as it helps me.

The network is also on Twitter and Facebook.

What if I Don't Stream? Or if I Want to Watch other Streams

We hope you'll catch some broadcasts! Everyone's stream is unique. Personalities, topics, and help they offer - check each out that you can and see how they resonate with you. Ask questions. Join in on the conversation. If you like the stream, follow them. If you can't watch or listen the whole time, we understand. Stop by and say 'Hi', stay as long as you like.

Click here to see the schedule. Click on an event to see the details. There's a link to the streamer's channel - so you can click to go there.

Streaming even details

We also post streams in the WA discord #summer-camp-streamers and #anvil-streams. And several other discords have a streamers channel, where you might see our streams.

Why Do We Have Requirements?

We want to be as open and welcoming as possible. Our goal as a group is to not only grow as streamers but to give back to the community of World Anvil. Our requirements are simple. **You need to be on WA at least a month, have an active world, have WA related content in at least some of your streams, and your content must be allowable on the platform you stream on.** These help us make sure that people aren't just joining WA to use the community for publicity, and that people are team players.

If you don't quite meet the requirements, we will still try to support you as a streamer. But you need to show us you've met the requirements to be on the roster and part of the network events and profile pages. If you're new to WA, glad to have you here. We'll be watching your content and cheering you on. I hope to have a WA newbie stream calendar just for that purpose. If you've not updated your worlds in a while, Summer Camp is a great excuse to do so!

Our calendar is also getting pretty full. Soon we'll be officially asking that non WA related streams be only published on your streamer profile--which are coming soon. The fill-in template for them is designed, we just have some testing to do. As for what constitutes a WA stream, it's pretty open. Even working on a book you're writing based on a WA world would count, if you reference your world in the stream.

How Can I Join?

We have instructions for joining and the ASC Code here.

What if I Just Want to Try Streaming Before Joining?

We have a system to allow you to have an event highlighting that you're new--which will go on the newbie stream calendar.

What Is the Plan for ASC?

Summer Camp is what brought our group together, so we'll be creating events after the hubbub of the big event cools. I've heard many people saying they'll keep streaming even after camp. And as mentioned above, we're about to test our user profiles so you can tell us about your streams and where you broadcast. And we're open to suggestions.

See you all in the streams!

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. How to Create Your ASC Member Profile

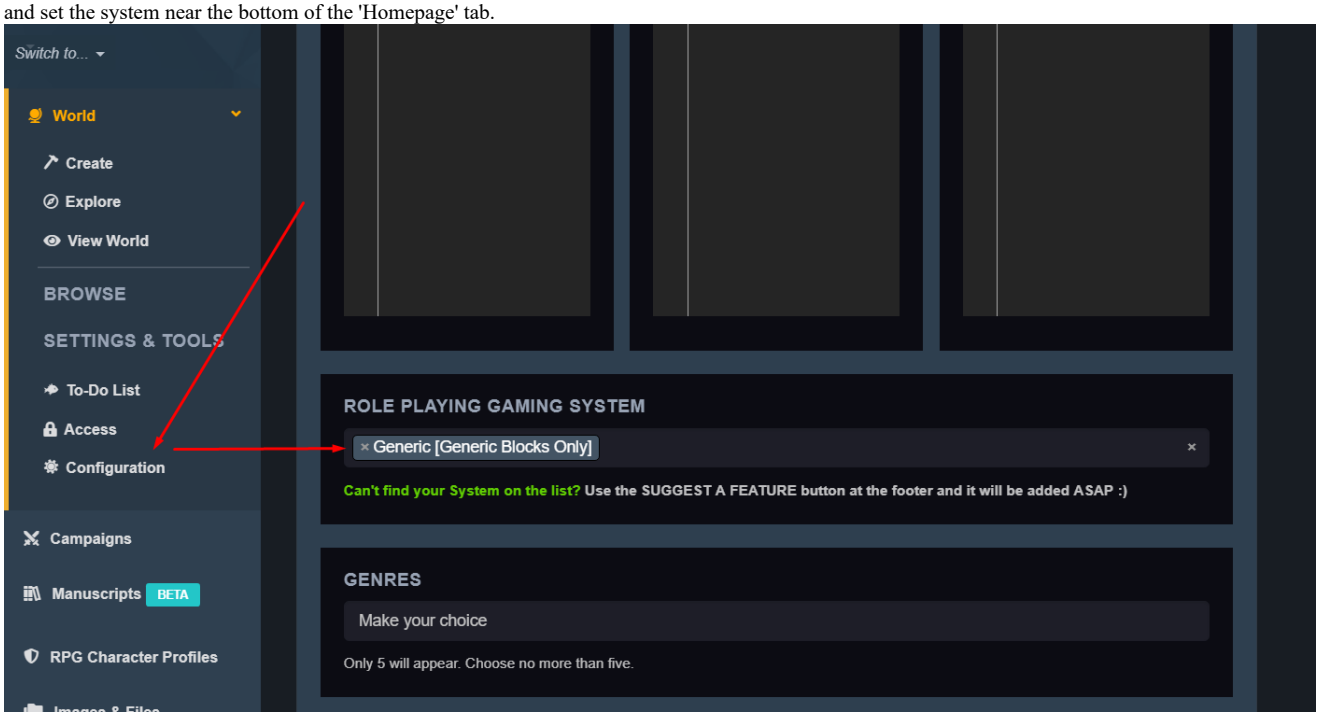
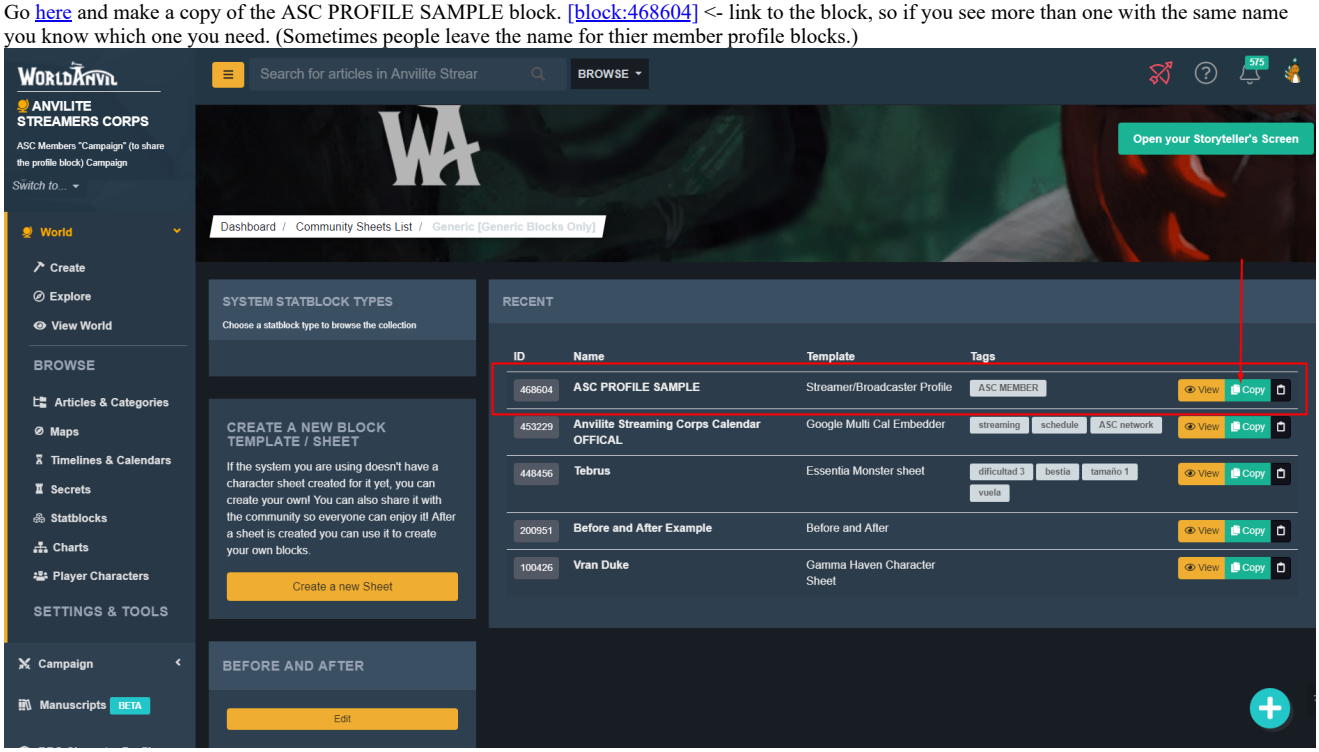
Set the RPG System to Include 'Generic'

Do you have any RPG systems active? You'll need the Generic [Generic Blocks Only] system active on one of your worlds. Pick a world, go to configure and set the system near the bottom of the 'Homepage' tab.



ASC Profile Block

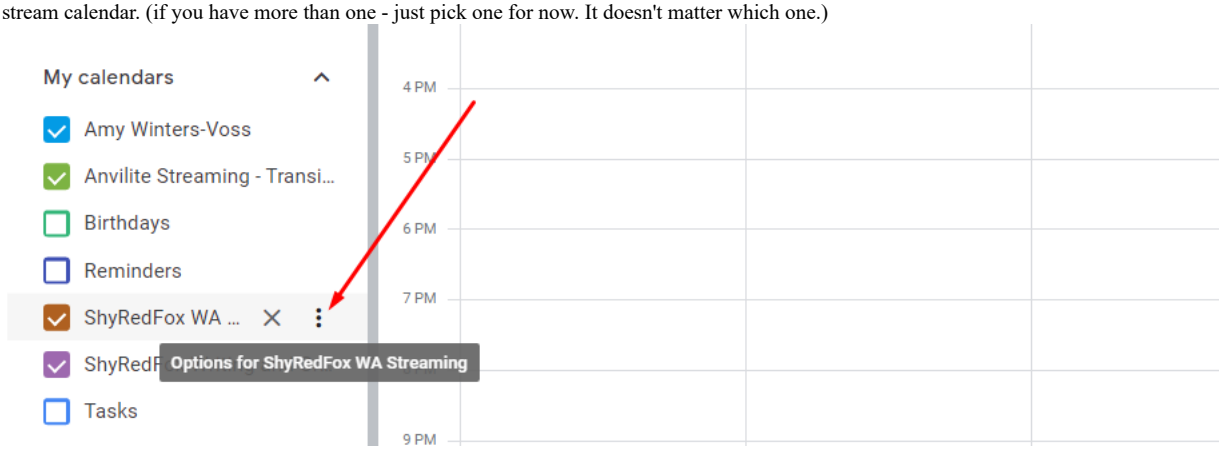
Go here and make a copy of the ASC PROFILE SAMPLE block. [block:468604] <- link to the block, so if you see more than one with the same name you know which one you need. (Sometimes people leave the name for thier member profile blocks.)



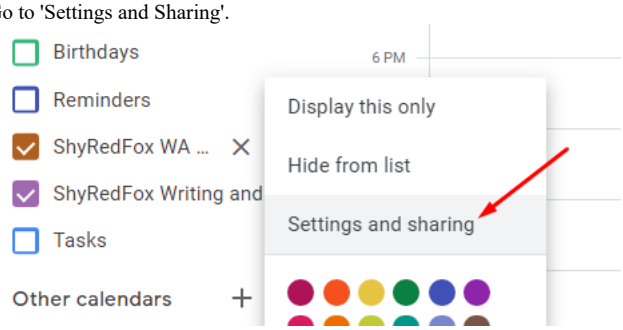
Fill it out. If there's anything that doesn't apply to you (a YouTube channel, discord, merchandise, etc.) leave that blank.

Your Google Calendar

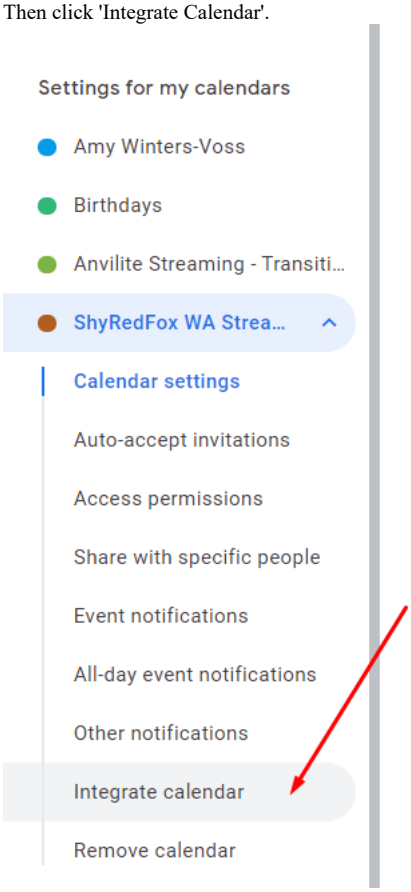
When you get to the part about the Google Calendar, go to your google calendar(s) for your streaming events and click on the vertical dot menu for your stream calendar. (if you have more than one - just pick one for now. It doesn't matter which one.)



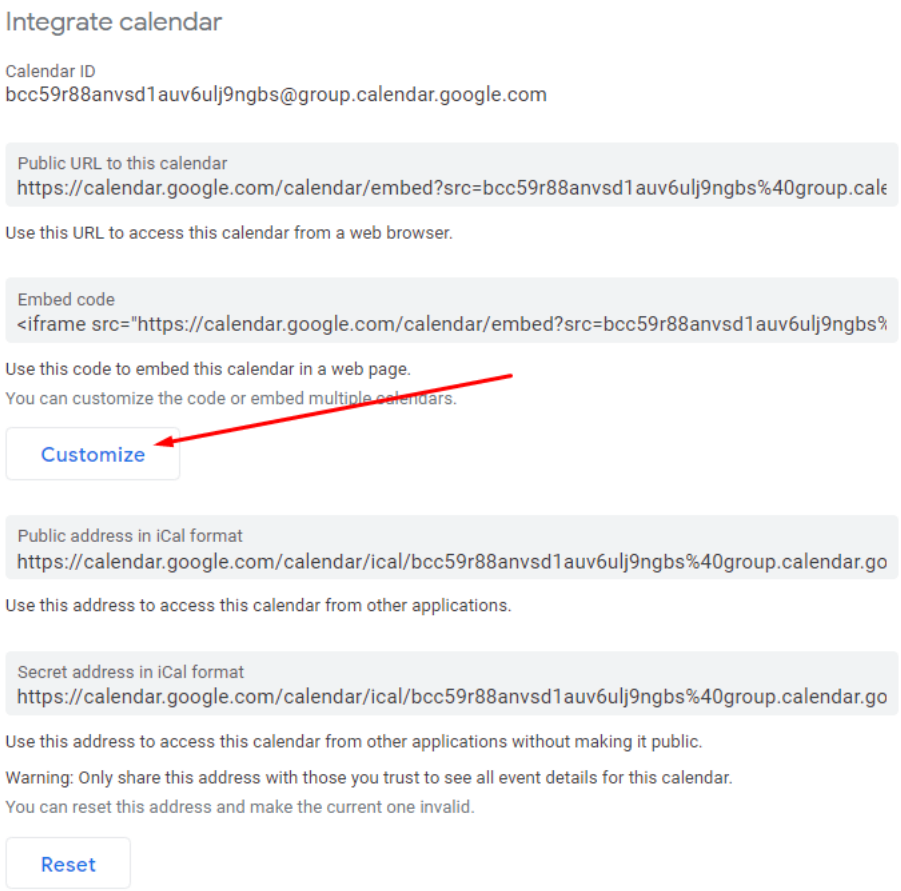
Go to 'Settings and Sharing'.



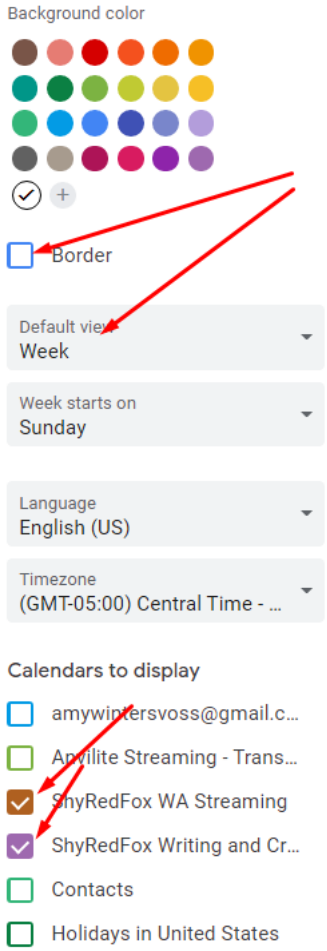
Then click 'Integrate Calendar'.



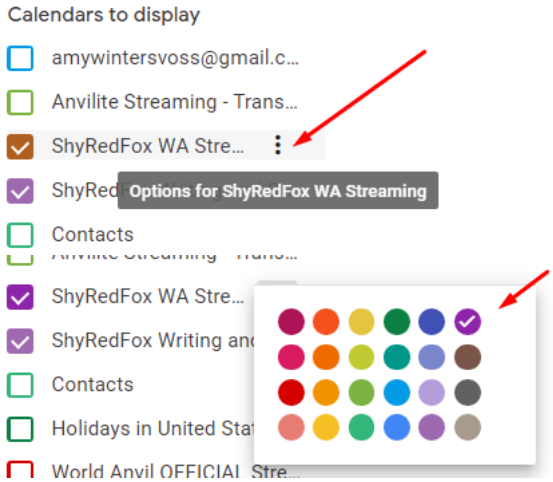
Pick 'Customize'.



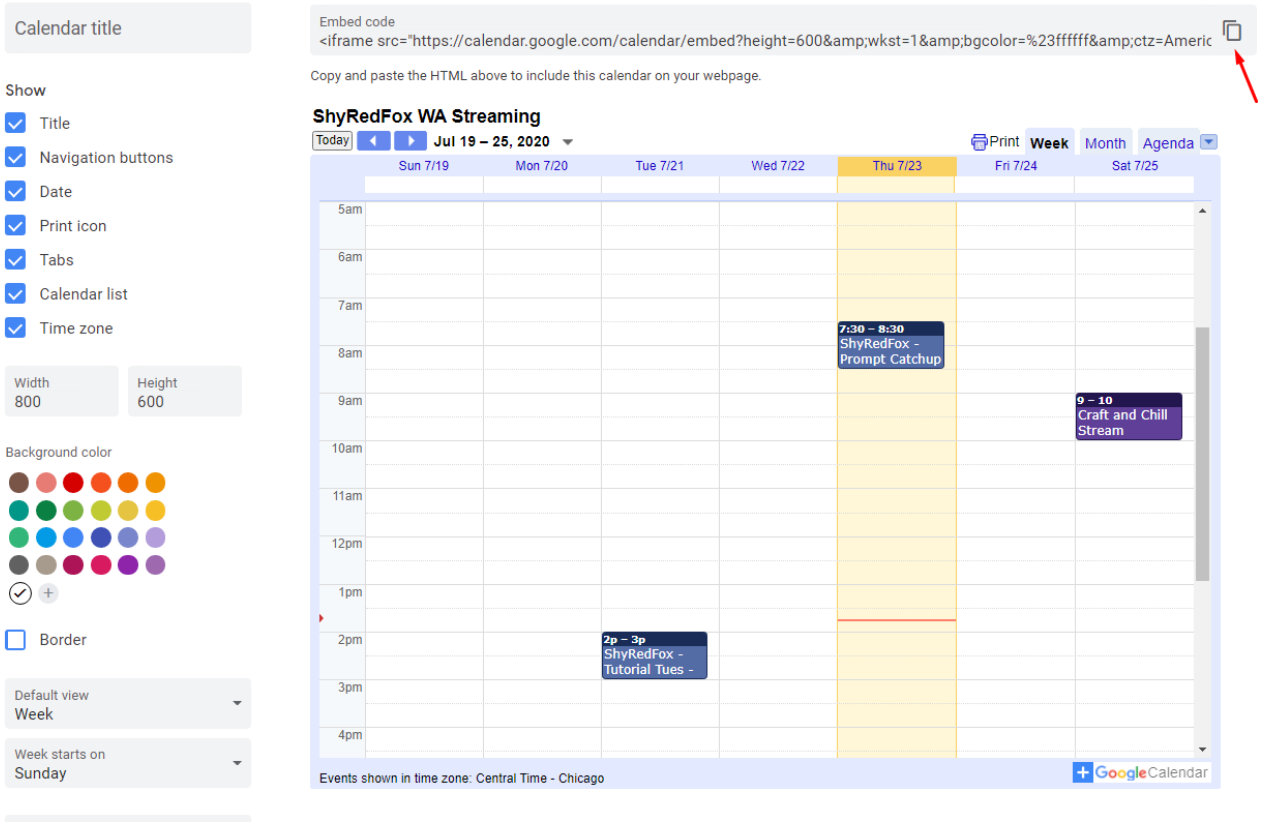
Unclick the border box, and set the display to week (or your choice). Then ensure you ONLY have your streaming calendar(s) checked.



The default main calendar color always seems to be blue, even if your calendar is a different color. (Why? No clue.) So if you want to change your calendar colors do that now. It's your calendar. Use the colors you like.



Then copy the iframe code at the top.



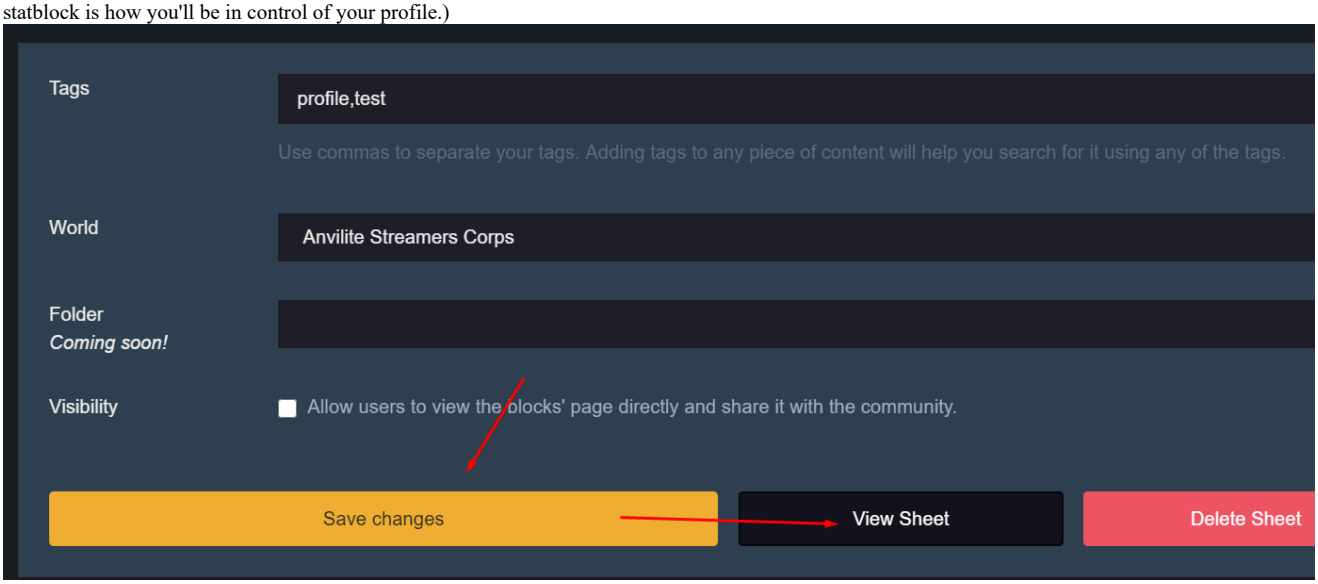
Paste that code into a text editor. Copy the URL from the code

```
<iframe src="https://calendar.google.com/calendar/embed?height=600&amp;wkst=1&amp;bgcolor=%23ffffff&amp;ctz=America%2FChicago&amp;src=YmNjNTlyODhhbnZzZDFhdXY2dWxqOW5nYnNAZ3JvdXAuY2FsZW5kYXIuZ29vZ2xlLmNvbQ&amp;src=cWRzdGw0NWY4a3JvbmZyaWNjZWNmN245djhAZ3JvdXAuY2FsZW5kYXIuZ29vZ2xlLmNvbQ&amp;color=%23af6020&amp;color=%239E69AF&amp;mode=WEEK" style="border-width:0" width="800" height="600" frameborder="0" scrolling="no"></iframe>
```

And paste that into the google calendar URL form box on your profile statblock.

Save!

Save your changes and view the sheet. Make sure your info is correct. (You can always go back and update the sheet if something changes. This statblock is how you'll be in control of your profile.)

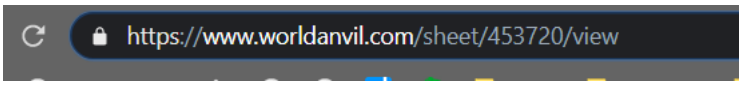


Send Us the Info For Your Profile

Fill out this Google Form with the following:

- Your Discord ID (so we can DM you that the profile page is ready)
- The URL of your WA author page
- The URL for the view of the statblock. It will look like this:

```
https://www.worldanvil.com/sheet/123456/view
```



That's it! We'll let you know via Discord DM when your profile is live.

Use Your Block Beyond the ASC Member Profile Page

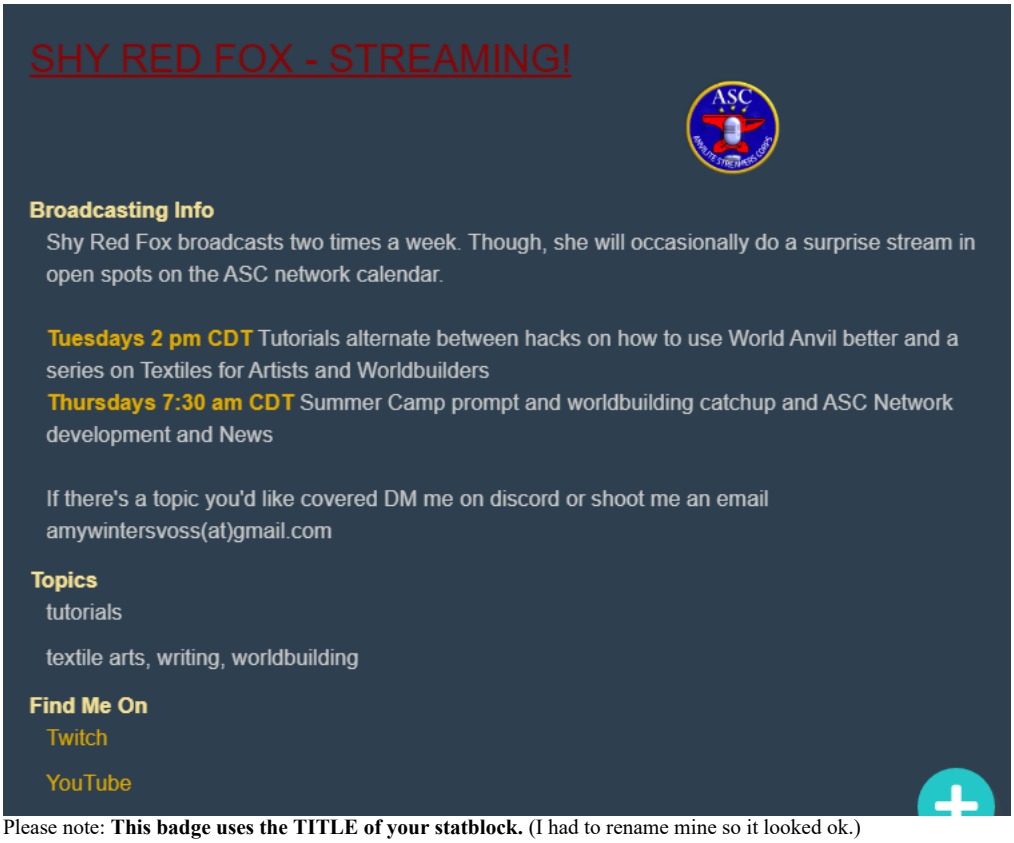
You can put the block you've created anywhere you like, even in your author profile page. (Though for the author profile page we currently only recommend the badge version as described below. - 08/15/2020)

Using the Badge/Card Version of Your Profile

You also have a mini version of the Streamer profile for easy sharing of your profile. Just paste your block bbcode and add '|badge' in front of the '}'. For example:

```
[block:123456|badge]
```

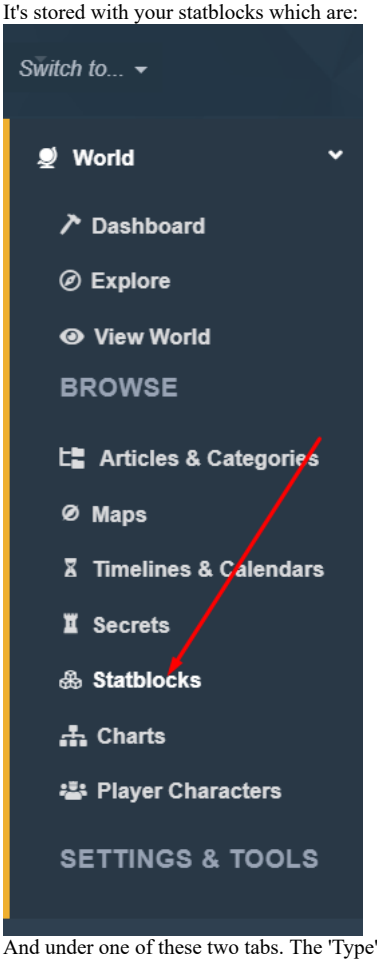
It's great to pop into your WA author profile like so:



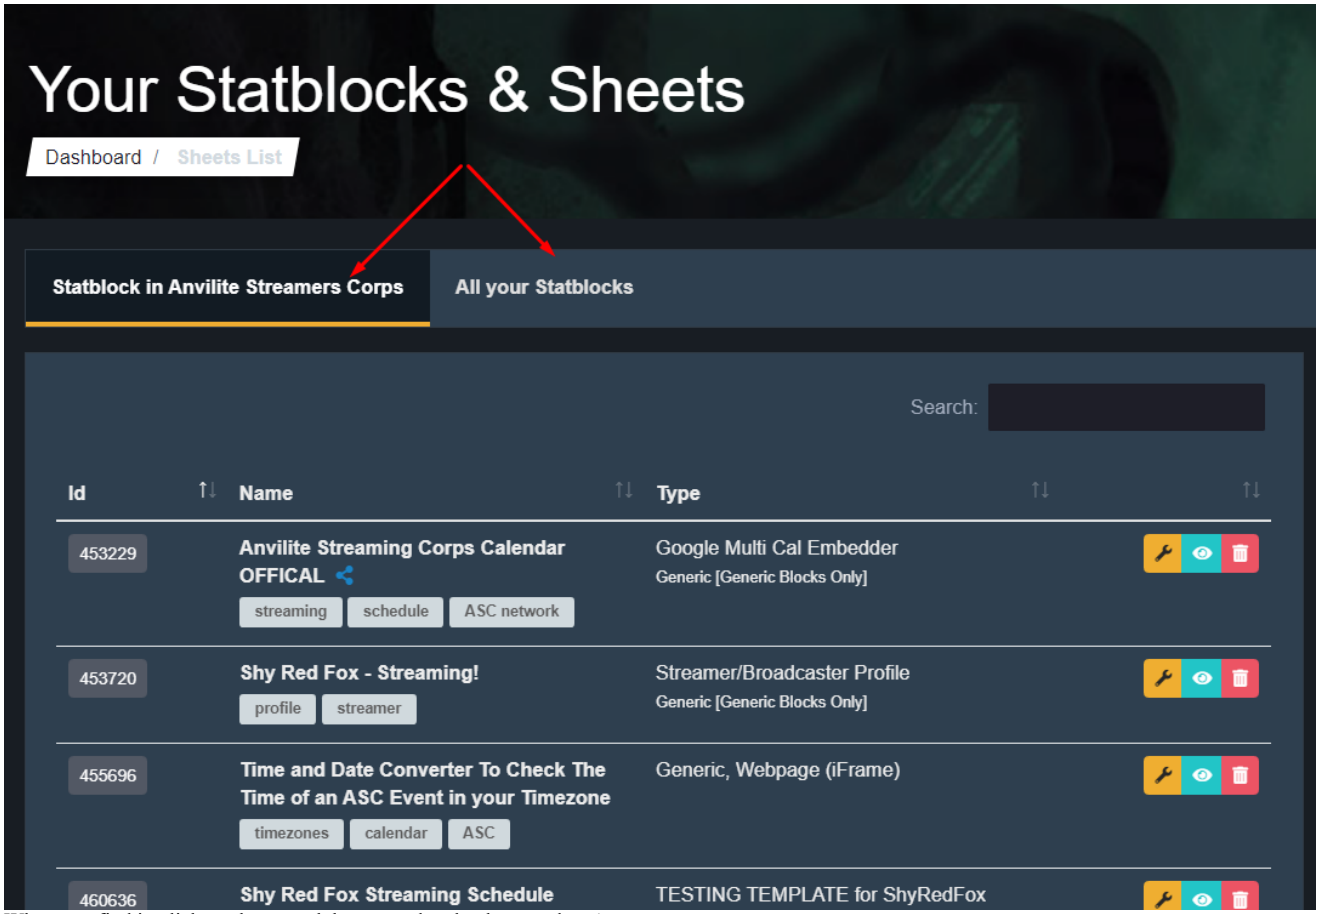
Please note: **This badge uses the TITLE of your statblock.** (I had to rename mine so it looked ok.)

HELP! I Need to Update My Member Profile Statblock!

It's stored with your statblocks which are:



And under one of these two tabs. The 'Type' will be 'Streamer/Broadcaster Profile'.



When you find it, click on the wrench button and make those updates!

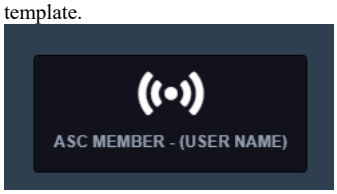
{ADMIN} How to Create a Member Profile

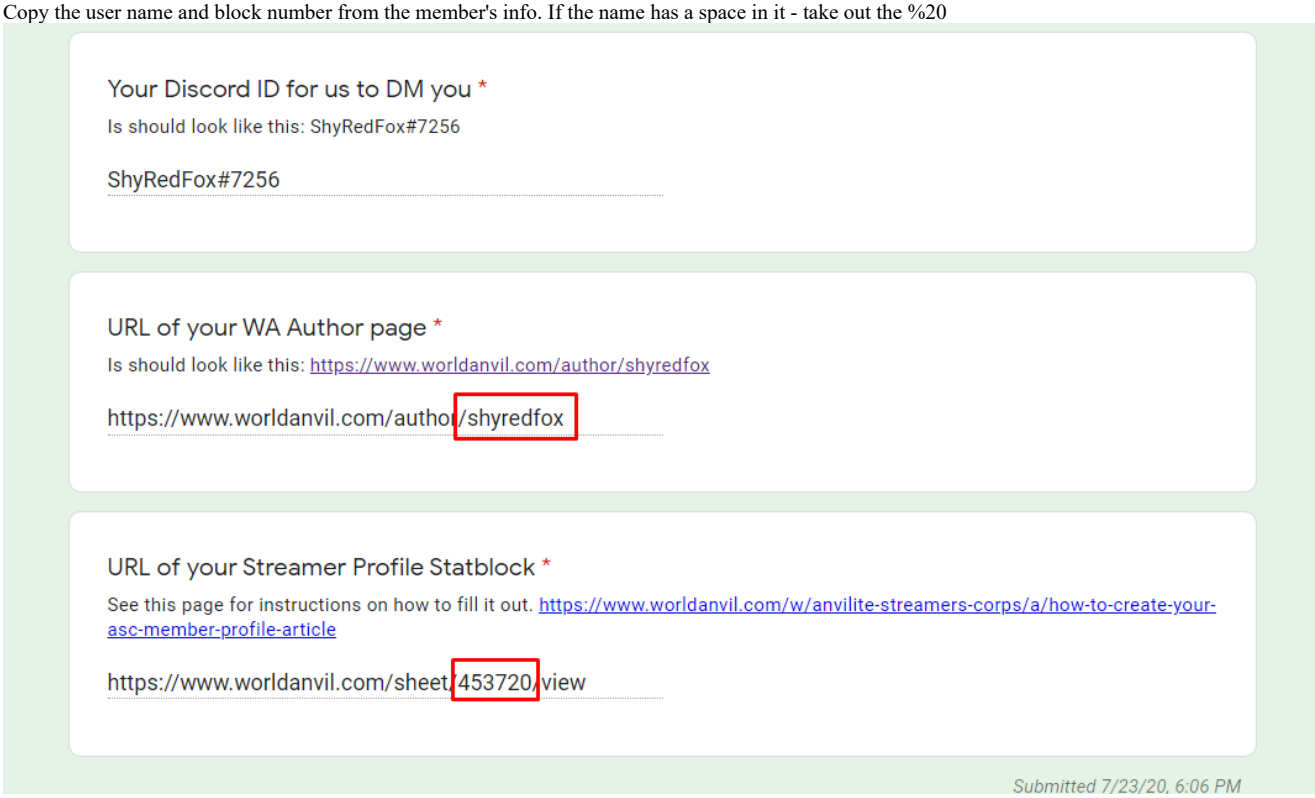
Creating the Profile Page

When members fill out the profile statblock link and the link to their profile, they'll send the information to us via a google form. Ensure you're looking at the 'Individual' tab. (Sometimes the info will get DMed or emailed to us too.)

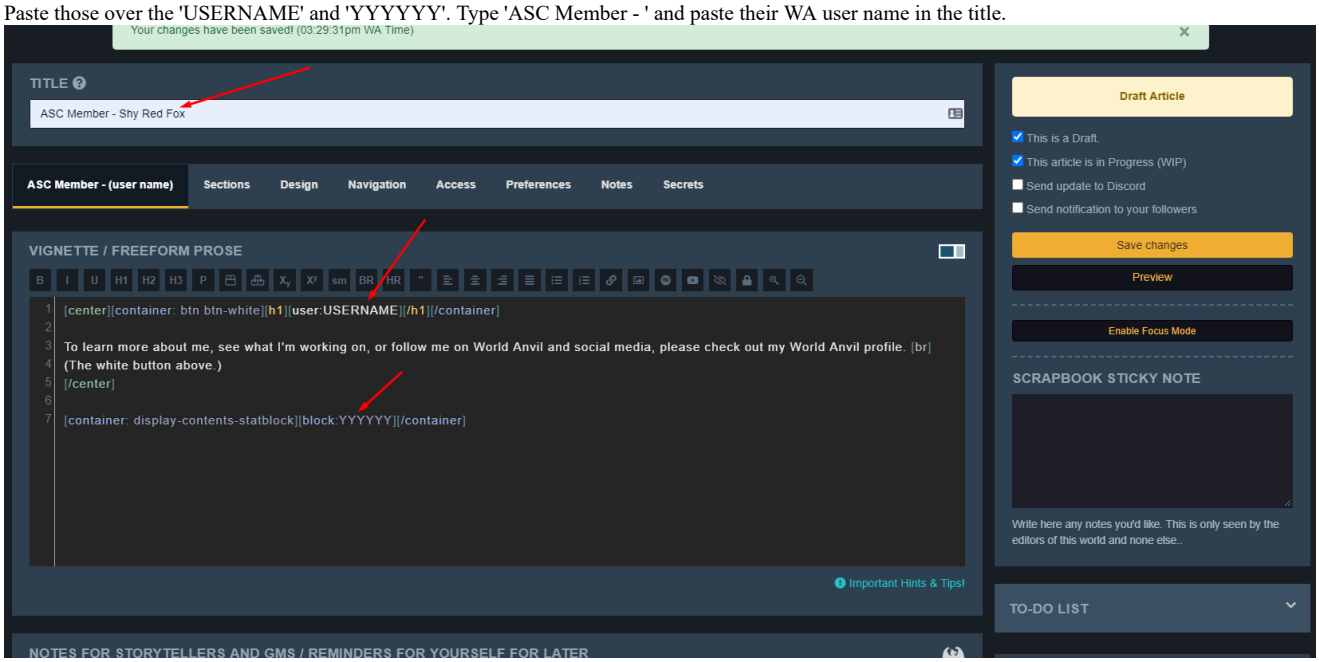
Go to the 'Dashboard' page on the ASC world author view. And click the button at the top that says 'ASC MEMBER - (USER NAME)' for the profile template.



Copy the user name and block number from the member's info. If the name has a space in it - take out the %20



Paste those over the 'USERNAME' and 'YYYYYY'. Type 'ASC Member - ' and paste their WA user name in the title.



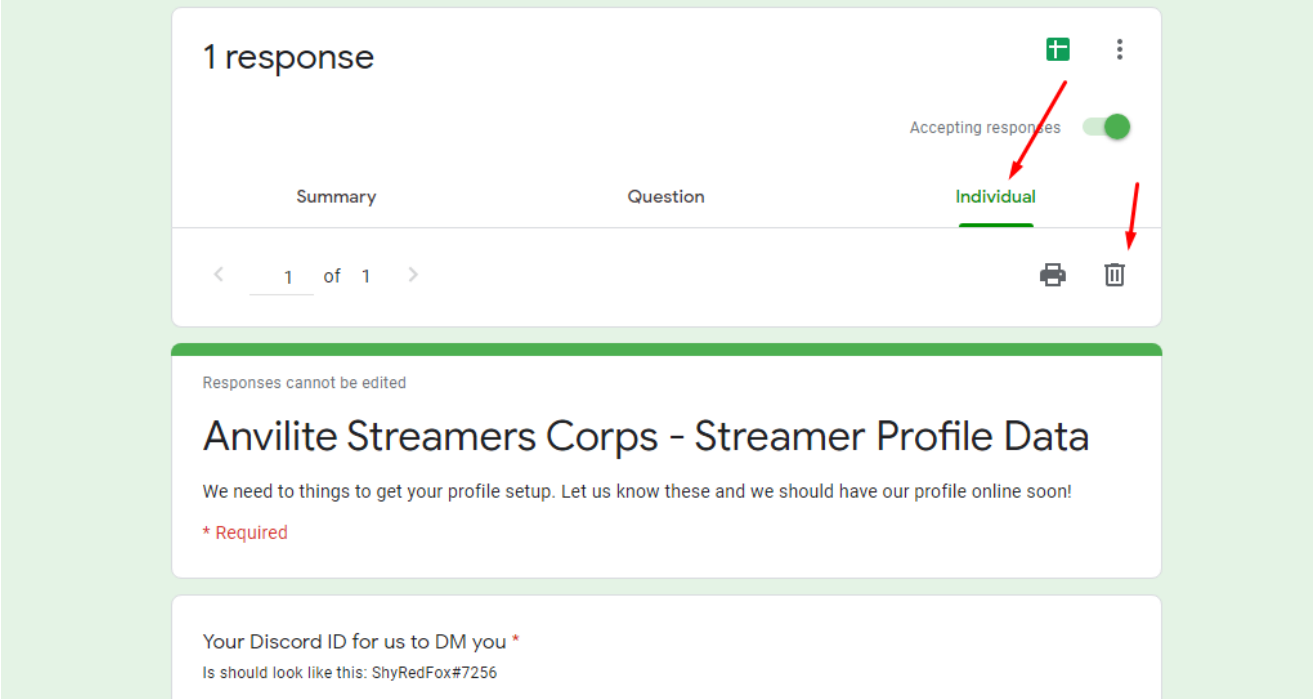
Under the 'Navigation' tab - set the category to 'Members'.

Under the 'Preferences' tab - uncheck the allow comments box.

Uncheck the 'This is a Draft' and 'This article is in Progress (WIP)'. Save.

View the article to ensure it looks right.

Delete the individual member profile submission after you verify the page. (Google forms doesn't use an editable spreadsheet for the form data anymore that I can find. So the responses are our queue and we'll delete them when done.)



Ping the member in the #anvilite-streamers-corps channel that thier page is live.

FAQ

What if I can't view the statblock link? That's ok. We just need the number. The statblock should show up on the profile page.

What if the member wants to update their profile? They own and control the statblock. So they just need to update it.

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. Graphics are labeled with the creator's name (either right below the graphic or at the bottom of the page) and are copyright the creator of the image. All rights reserved.

ASC Member - Isaac Thompson

Isaac A.N. Thompson

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile. (The white button above.)

Broadcast Topics

worldbuilding, Art

Channel Summary

Isaac Thompson currently broadcasts 2 times a week for two hours at a time. The majority of streams will be worldbuilding focused in some way, whether that be designing visual aspects of the world or writing articles. What each stream will be about depends on the day, but broadly:

Tuesday 22:00 AEST Worldbuilding and Art. Designing visual aspects of the world, from clothing and characters to maps and buildings.
Saturday 22:00 AEST Worldbuilding and Article Writing. Working on slowly going through the stub backlog and updating older articles. Saturday streams will sometimes include an hour or more of Minecraft from midnight onwards

If there's a topic you'd like covered DM me on discord.

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile. (The white button above.)

Broadcast Topics

tutorials, textile arts, writing, worldbuilding

Channel Summary

Shy Red Fox broadcasts five times a week. Though, she will occasionally do a surprise stream in open spots on the ASC network calendar.

Mon-Wed 2-3 PM CDT Writing! Join me as I get into writing and editing again. I'll have writing sprints to keep us productive.

Fri 2-3 PM CDT Tutorials alternate between hacks on how to use World Anvil better and a series on Textiles for Artists and Worldbuilders.

Saturday 9:30-10:30 am CDT Craft and chat. Bring a craft (if you like), grab a drink and have a relaxing, low key chat with me.

If there's a topic you'd like covered DM me on discord or shoot me an email amywintersvoss(at)gmail.com

ASC Network Updates

September 5, 2020 We have an awesome new theme thanks to Garrett Lewis. Also updated ASC Community and Resources with some settings tutorials for Twitch and Streamlabs OBS.
September 2, 2020 ASC Events added and linked on homepage
August 22, 2020 ASC Officers meeting: 18 August 2020 notes are available. Updated Adding Your Streaming Events to the ASC Network Calendar page with the new system.
August 20, 2020 Added a twitch panel by CoffeeQuills that helps share what WA is about - see ASC Community Image Resources
August 20, 2020 Cleaned up the ASC Community Image Resources page and added WA logos and the camp streamer pack link.
August 19, 2020 Added a note on ASC involvement in events on the bottom of the ASC FAQ
August 19, 2020 Updated the map with a note "If your area is observing DST, please add 1 hour to your current time zone."
August 13, 2020 Updated the ASC FAQ to specify what can and can't be posted to the ASC calendar and WA server. Also updated the Welcome New ASC Member! to include the FAQ page.
August 9, 2020 Updated the ASC Members Map with pins specific to each WA level. Lightened the map and added a key.
August 6, 2020 Added a background to the membership badge profiles - so they show up on light colored author pages
August 4, 2020 Updated the front page to be more compact. Also withdrew a policy on committing the ASC for events. We will rework it so better fits our vision of the group as a whole. Details to come.
August 3, 2020 New! The ASC FAQ will be our policy page and FAQ page
August 2, 2020 updated How to Create Your ASC Member Profile (viewable by members only) to include 'Using The Badge/Card Version Of Your Profile' and 'HELP! I Need To Update My Member Profile Statblock!'
August 1, 2020 Added a FAQ section to the Welcome New ASC Member! onboarding page.
July 31, 2020 The ASC Code (at the bottom of the Anvilite Streamers Corps home page has been updated to reflect our relationship with WA. And the Welcome New ASC Member! onboarding document was updated with information on how map pins are created
July 29, 2020 Updated the ASC Community and Resources page to reflect our new home on the WA discord. Added # Welcome New ASC Member! onboarding page to help guide new members through our resources and have it all in one place! (Moved all related articles under it.) Added the onboarding article to the front page.
July 28, 2020 Added requirement to be a member of the WA Discord, for Applying to the Anvilite Streamers Corps--since our home is there now
July 24, 2020 Streamer profiles are live. Check out How to Create Your ASC Member Profile. This will help you create a block that is added to your streamer page. You'll have control over it. AND you can add it to where ever you like!
July 23, 2020 Updated Adding Your Streaming Calendar to the ASC Network Calendar to let people know we'll update the network calendar about once or twice a day and will post in the WA discord when we do.
July 22, 2020 Updated the ASC Code to include "We follow our platform's Rules of Etiquette" with a link to the Twitch Etiquette
July 21, 2020 Added link for how to connect Twitch and Discord to ASC Community and Resources (members only)
July 16, 2020 Added our social media accounts to the top of the page. Feel free to join the Facebook group and follow us on twitter.
July 15. 2020 Updated the ASC Code on Applying to the Anvilite Streamers Corps add the home page with a couple of notes on how we as streamers are public figures so that should reflect in how we speak, and how we speak about WA.
July 10, 2020 Added ASC Community Info and Discords in the Membership Files + Info. Members can get the links to all our community hubs.
July 09, 2020 ACS Network calendar is now color coded by topic. So the updates to the calendar look and feel are complete. If you haven't been assigned a color, DM ShyRedFox or KahunaTheElder on Discord to get your calendar color updated. If your events are in Graphite gray, please apply to become a member of the ASC
July 08, 2020 Membership is open. See Applying to the Anvilite Streamers Corps. Added link to the Network calendar block, so you can add it to your world, if you like. Updated the homepage so link to application and officers / volunteers are listed. Moved the articles for member use (calendar application, member shared images) under Membership Files and Info. If you were listed as a writer and you aren't a volunteer officer, sorry we took you off the writer list. We found a better way to handle profile pages and still keep them under your control to update - statblocks. We'll have a template and you create the block, send us the block code. We'll be able to post it for you. (This way we don't run out of author slots!)
July 07, 2020 Modified the calendar time zone to GMT and added an embedded converter to the page so it's easy to tell what time an event is in your time zone.

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. Graphics are labeled with the creator's name (either right below the graphic or at the bottom of the page) and are copyright the creator of the image. All rights reserved.

ASC Officers meeting: 18 August 2020

Attendees

- ShyRedFox
- Laurabones
- Lyraine Alei
- Heffe
- Timepool
- Sable Aradia
- KahunaTheElder
- ZogMadDog
- SecondhandSamurai

Topics tabled for discussion

1. Calendar restructuring
2. Map options for DST (daylight savings time)
3. Formatting the ASC Calendar
4. Wording for commiting ASC to events
5. ASC events updates
6. ASC site theme updates

Review

1. Our current calendar is becoming clunky due to the number of streamers that have joined the ASC. We also need a way to separate WA announceable streams from all the other awesome stuff our streamers do. Two options were put forward to test for viability and ease of set-up / use. It was decided that the officers would try out both these options in a test environment and then make a decision at the next meeting. Topic tabled for next meeting.

2. Due to the fact that not all countries / regions observe DST it would be a lot of work for little benefit to accomodate for this on our streamer world map. It was agreed that a simple addendum to the top of the streamer map would suffice. The following line to be added to the top of the map *"If your area is observing DST, please add 1 hour to your current time zone."*.Topic closed for discussion.

3. A discussion on the colour coding and formatting of the calendars for different stream categories took place. It was decided that what we have currently is working for now, however Timepool and ShyRedFox would look into other options if this ceased to be the case in the future. Topic on hold, to be raised again in the future if needed.

4. A discussion was had on the wording for the involvement of the ASC in events that our streamers may like to run in the future. An appropriate and more official wording was settled upon, announcement update pending. Topic closed for discussion.

5. Heffe put forward a sample events page and ideas for an events calendar. A number of proposals were put forward on how to handle sign up for events. Laurabones volunteered to help manage the sign-up process. Topic ongoing, pending futher updates from Heffe as he works on this project.

6. Timepool updated us on their progress on the ASC site page theme, including fonts, colour scheme, and logo options. It is looking super slick so far. Watch this space!! Topic ongoing, pending futher updates from Timepool as they work on this project.

ASC Member - Kahuna The Elder

Kahuna The Elder

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile. (The white button above.)

Broadcast Topics

worldbuilding, Storytelling, RPG, Creativity, Art

Channel Summary

Currently, The Kahuna (me) is streaming live three times a week:

Sundays: Kahuna Reads. 4p PT, 7p ET, 11p UTC - Hear World Anvil articles voice acted out live on stream! Want to hear yours? Drop a link in the #kahuna-reads Discord channel on Kahuna the Elder's server: Click Here For Your Invite

Tuesdays: Kahuna HELP!!! 4p PT, 7p ET, 11p UTC - Need help with a SummerCamp prompt? Can't figure out how to fill a plot hole? Just looking for shenaniganery?

Fridays: Live From The Kahuna Lair. 11a PT, 2p ET, 6p UTC - Who knows what'll happen on this stream?! We'll have fun, talk worldbuilding, see what the Kahuna has been working, and as always, enjoy some shenaniganery.

ASC Community and Resources

Setup Tutorials

General

- Encoding Settings - Twitch Support

Streamlabs OBS

ShyRedFox found these helpful (nice amount of detail, but not overwhelming)

- How To Get Better Mic Quality on Livestreams - Streamlabs OBS Filters
- BEST STREAMLABS OBS STREAM SETTINGS 2020

When You Reach Affiliate Level on Twitch

Dani was kind enough to put together a tutorial on what to do to make the most of your new Twitch affiliate status.

Secondhand shared the instruction page for how to connect twitch and your discord server.

Stream Resources

Sprint Timer

A lot of streamers like to do word sprints or otherwise timed, focused periods of work. Darth Nikolas Fenmorielle has created a greenscreen sprint timer for your use, which you can find on the ASC Community Image Resources page. Or, if you want to make your own, he has kindly created a tutorial for you!

Keep Up with the ASC Network Happenings

Github

Our tracker for our to-do/ideas list (and eventually a place to store resource files that WA can't host - like sound bytes, etc.). You can see what we are working on And what's in the works.

ASC Community Discords

(Not personal ones - those are on your profile pages.)

World Anvil has an amazing and supportive community that I hope our Network will emulate. They have kindly opened up two channels on their server for streamers. #Summer-Camp-Streamers channel (for summer camp streaming and planning) and #anvil-streams (for streaming announcements) and #streamers-corps for our group chat, news, coordination, etc.

Updates

07/21/2020 Added link for how to connect Twitch and Discord

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. Welcome New ASC Member!

We are so glad to have you aboard the ASC Network!

Onboarding

Here is a list to help you get onboard and best utilize the benefits available to you.

- Secondhand Samurai will give you the Anvilite Streamers Corps role for our Channel on the WA Discord: #streamers-corps
- ASC FAQ - for lots of things, including specifics of what can and can't be posted to the ASC Calendar and posted to the WA server. *Important!*
- ASC Community Image Resources - Is where to find the ASC badge, posters, and other images
- Adding Your Streaming Calendar to the ASC Network Calendar - shows how to get your streaming calendar added to the Network
- How to Create Your ASC Member Profile - shows how to set up your profile block - that you can use beyond the profile page. Your profile has the information—timezone (required) and country/location (optional)—that we use to create your pin on the ASC Map.
- ASC Community and Resources - a list of help files and general community resources
- We have some social media accounts you might want to follow. Twitter and Facebook page.

FAQs

- What are good settings for my streams? Twitch has a guide for this.
- What is the low latency setting and why would I want it? Streamlabs has a nice explanation.

Cancelation of Stream Events

If you need to cancel a stream, please if you possibly can:

- remove the event from your calendar more than 15 minutes before the stream (otherwise our IFTTT bot will announce your stream)
- post in the #streamers-corps so that someone can take your spot if they would like

Know that we understand emergencies and tech glitches happen. We can only ask that you do you do your best.

Community Updates

We're working out how to notify people of anything new.

- We'll post to the ASC Network Updates page and notify followers of that. It will also post in the #streamers-corps channel. And *soon* we should have those updates filtering through our social media accounts.

If you have any question or have suggestion, let us know in the #streamers-corps channel.

ASC Member - Heffé

Heffé

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile.
(The white button above.)

Broadcast Topics

worldbuilding, RPGs, writing, gaming, art

Channel Summary

Currently I, Heffé (aka HefféLive), am undergoing the **IRONGORGE HEFFATHON** where I stream every day during the Summer Camp 2020 Challenge hosted by WorldAnvil.
However, I usually streams 3 times a week!

Schedule

Worldbuilding Wednesdays - *Wednesdays 5pm-8pm GMT/BST* - Where we worldbuild on a wednesday! It is also where he encourages you to do the same. A mid-weekly worldbuilding workshop stream!
Funday Friday - *Fridays 5pm-8pm GMT/BST* - Where we have fun on a Friday! This is my funday gaming stream, where we chat, chill and play games. Games are either singleplay or mutiplayer!
Something Sunday - *Sundays 5pm-8pm GMT/BST* - Where we do something (usually creative) on a Sunday! Not only do I enjoy writing/worldbuilding, but I also enjoy drawing maps and pixel art and doing other creative things. This is the stream where I do that

Of course everything is subject to change; so keep an eye out on my Twitter or Discord Server for the latest news and updates.

ASC Network Calendar Changes - Annoucement

ASC NETWORK CALENDAR CHANGES ARE BEING ROLLED OUT

After considering member input on splitting the ASC calendar we chose a method that tries to incorporate all the needs and requests as best we can. So the ASC is simplifying our network calendar. A lot of thought and testing went into the decision.

This is due to:

- there being some confusion about what is Announceable on the WA Server
- members brought up the fact that multiple calendar windows make it hard to see our group as a whole
- the calendar loading ridiculously slow (because our calendar is a compilation of 50+ calendars loading)
- the fact that we are approaching the character limit for the Google calendar API

The last two reasons were the reason we HAD to change, but the first two reasons rolled in nicely.

Having one combined calendar like this with two calendar options will allow us to show our diversity in interests and allow non WA software on the All Inclusive stream list.

THE BIG CHANGE

Instead of inviting the ASC calendar to see your streaming calendar, we'll need you to invite one of the 2 ASC calendars "WA Announceable" and "All Inclusive" to your individual streaming listings. (Directions below)

THE LOOK OF THE ASC NETWORK PAGE

There will be 2 main colors for the calendar "WA Announceable" (blue) and "All Inclusive" (purple). The WA stream will be in red and the ASC calendars in greens.

See the updated calendar here.

HOW TO UPDATE YOUR STREAMING CALENDAR

I apologize for the inconvenience. But we tested and tried various things to make this as painless as possible. It should take members about 10 minutes to do the change and be done with updating any existing events for your calendar.

Directions for adding each of your streaming events to the calendars can be found here.

My calendar is switched over - to be the example so you can see what the colors will look like.

PLEASE let us know if you encounter any issues. We'll be here to help get you transitioned over. Ask questions in the #streamers-corps channel on WA

These changes *should* make it so we don't need overhauls to the calendar again.

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. Graphics are labeled with the creator's name (either right below the graphic or at the bottom of the page) and are copyright the creator of the image. All rights reserved.

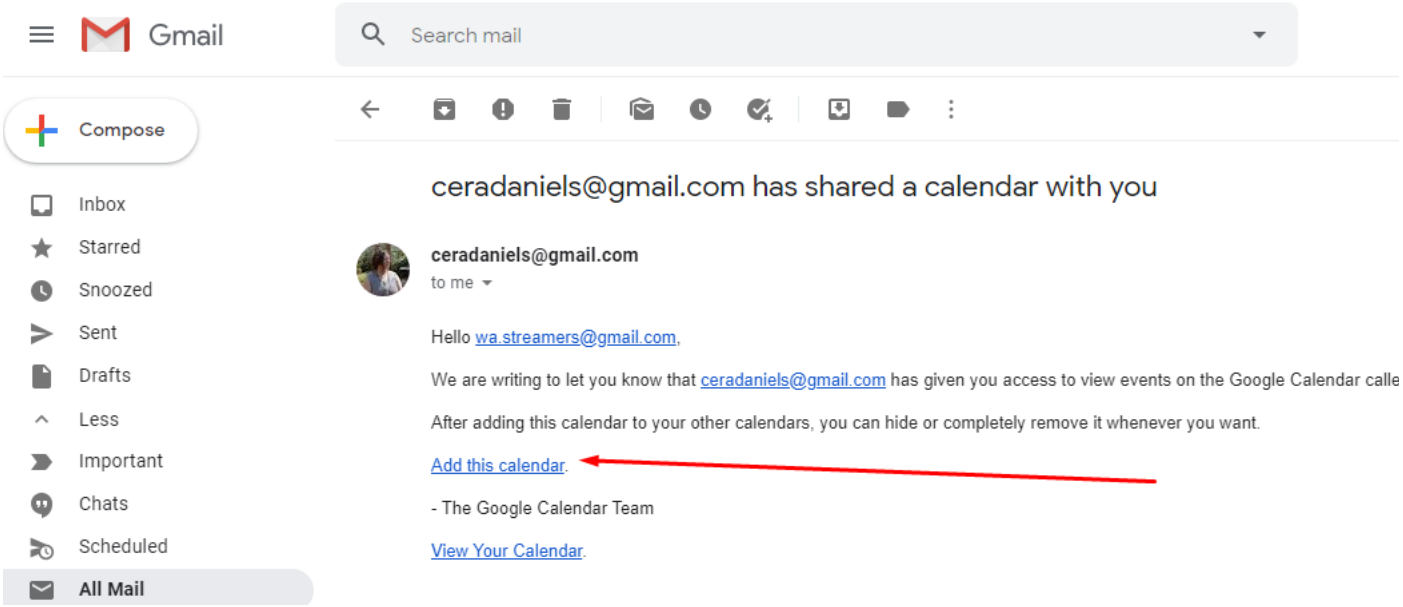
{ADMIN} How to Add a Member's Calendar to the Network Calendar

Notification and Viewing Access

Login to the wa.streamers(at)gmail.com account.

For each new member, you'll receive an email inviting you to view the member's Google calendar. Click on the link in the email. Google will open up the calendar for you.

I have to be logged in to Google as wa.streamers in a separate window. I can't be logged into my normal Google account and access and have Gmail open with the wa.streamers account active. It will STILL try to add the event to my own calendar.

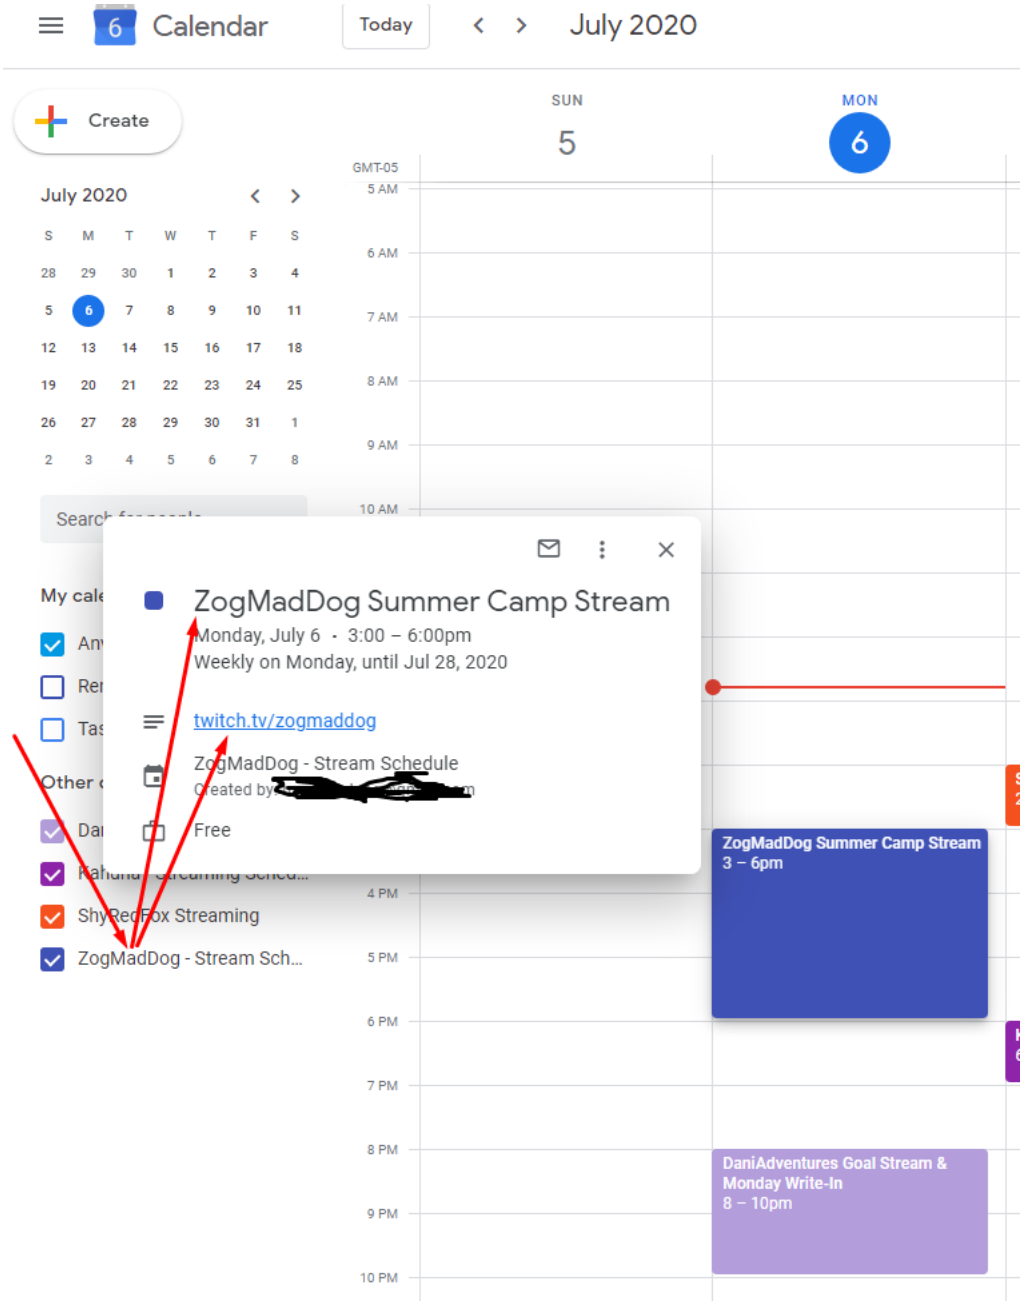


Color code the calendar as follows:

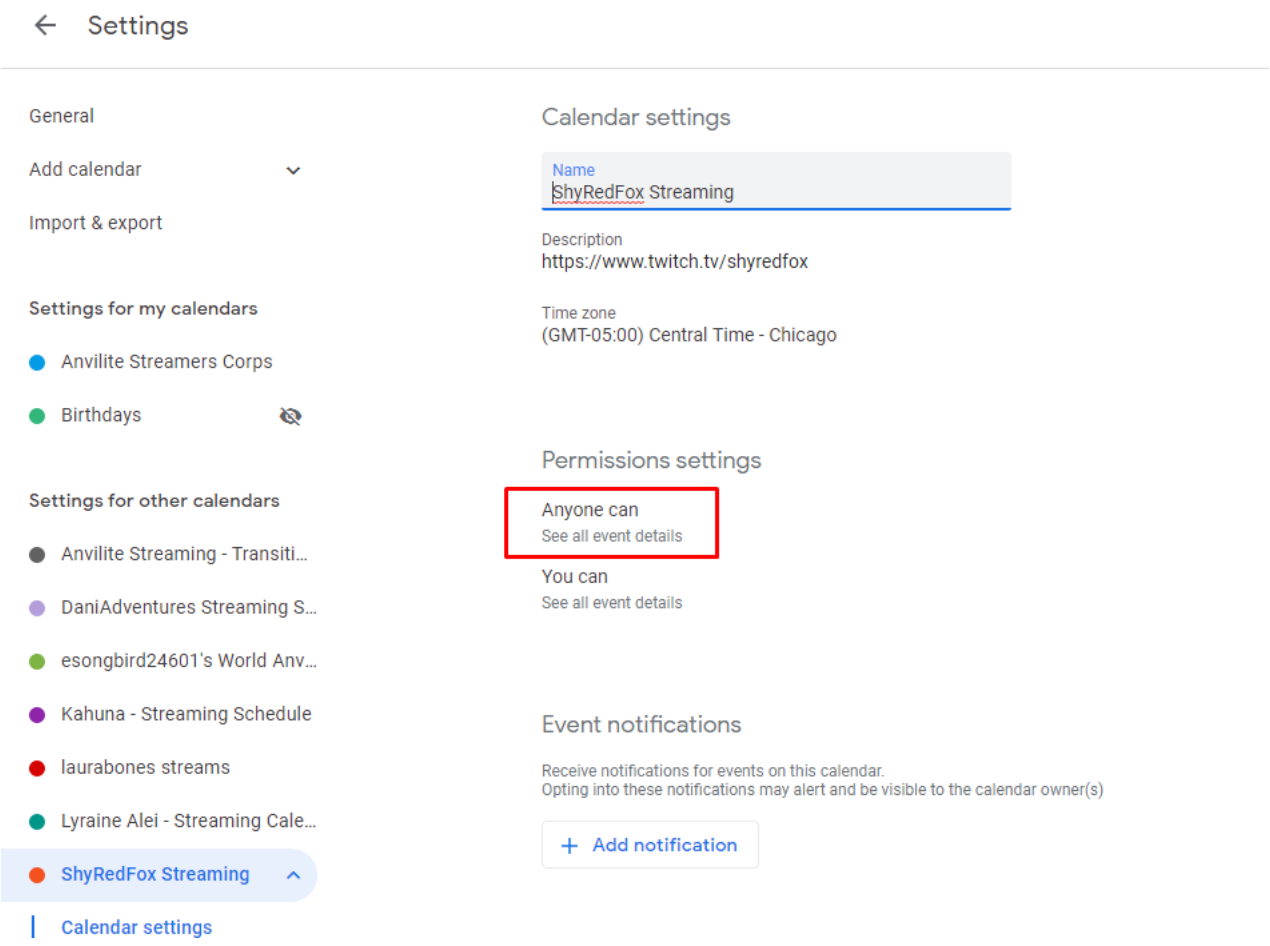
Raddiccio (Red) for Worldbuilding
Orange for Tutorials
Grey (#717171) for uncategorized

Verify the Calendar Information

Make sure they have their WA/Discord name in the calendar name and events. And their streaming link should be in the description. If not, poke them to do this. (So we don't have 50 calendars all named "Streaming Calendar" and events all called "Worldbuilding Wednesday".)



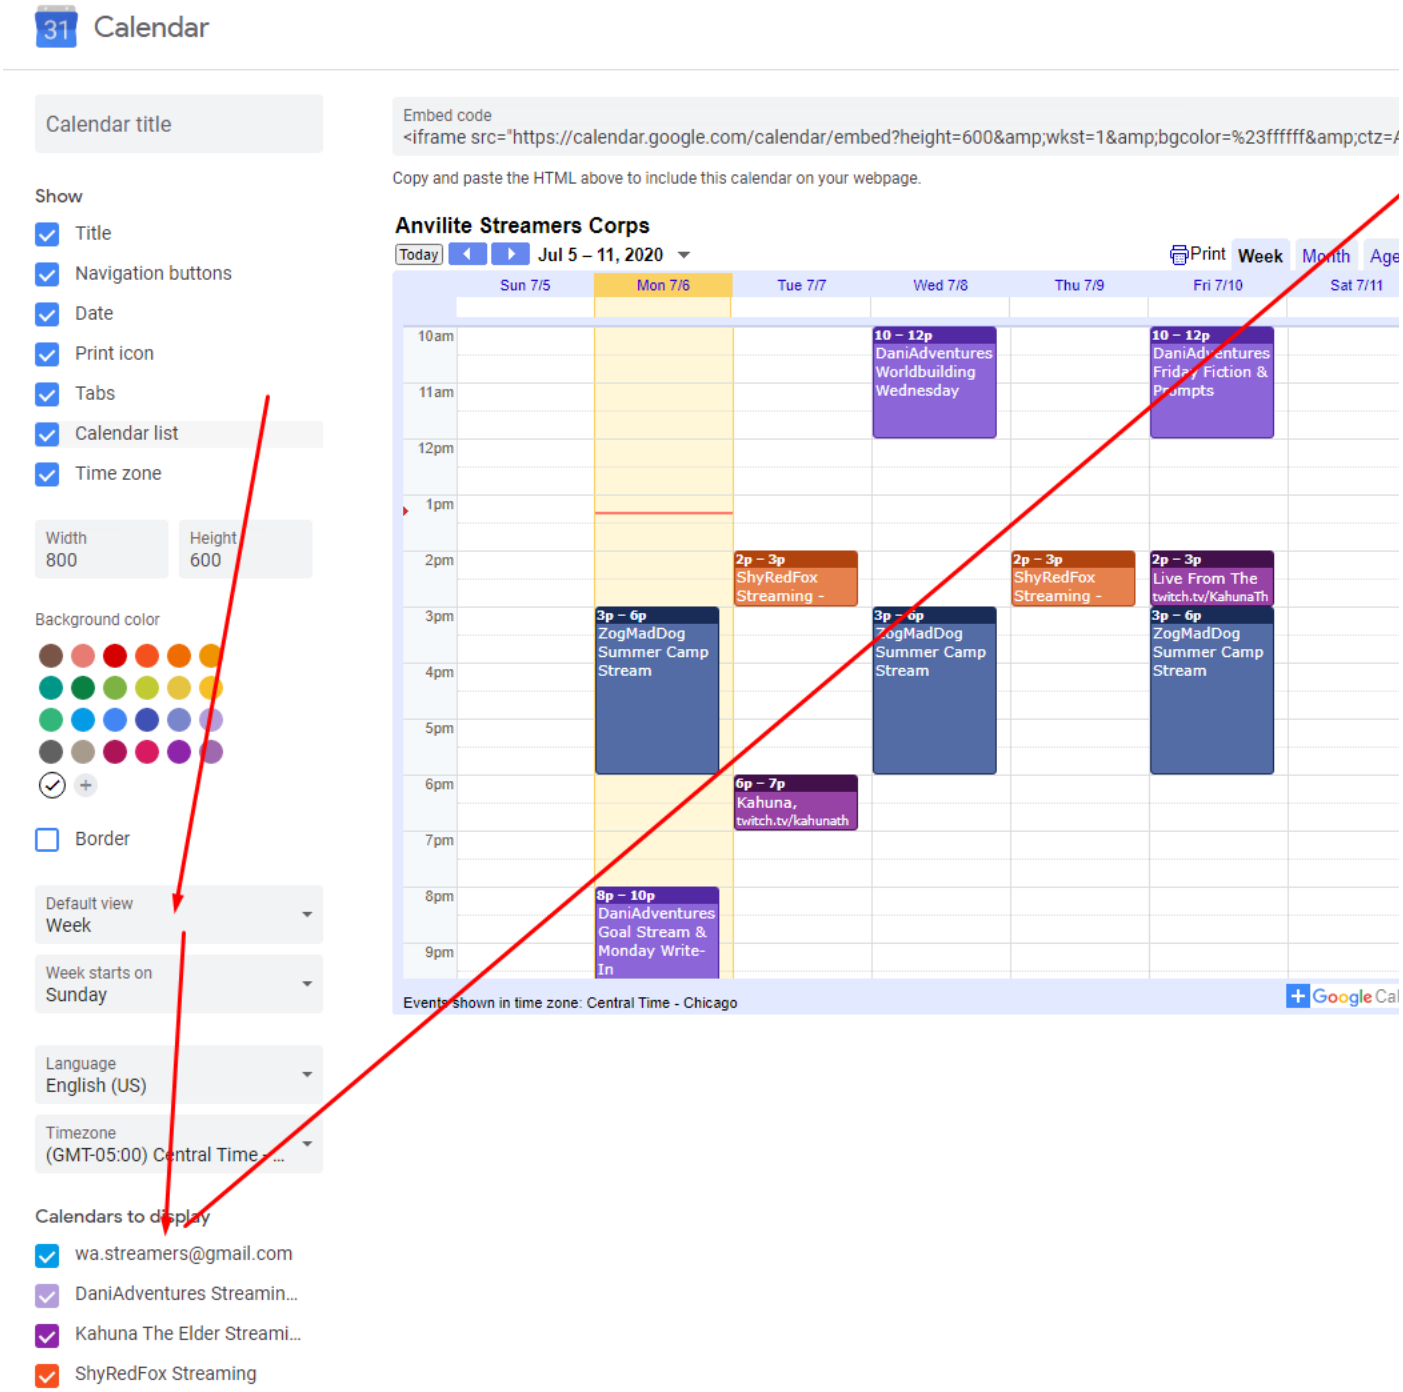
Verify that their calendar is viewable by the public



Updating the Public Network Calendar

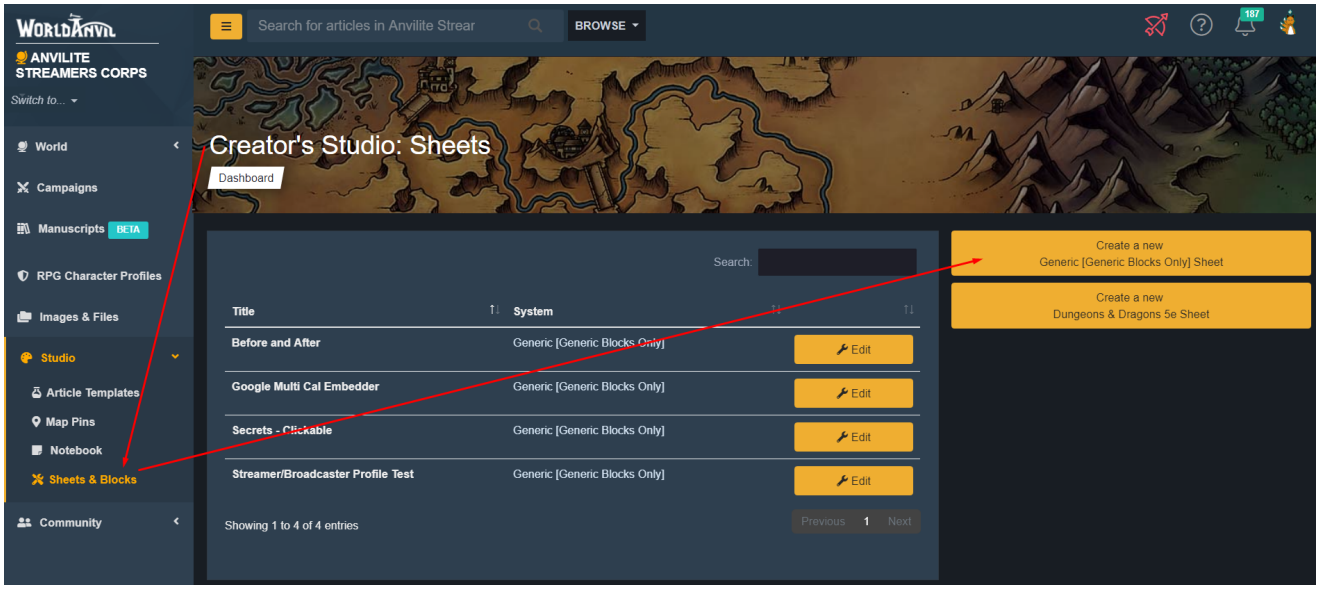
For each new member sharing a calendar, we need to update the iframe code in the HTML/TWIG statblock template. But this can be done after adding a batch of the new member calendars.

First we need the iframe code from Google calendar. Hover over the WA Streamers calendar name. Click the 3 dots, then 'Settings and Sharing'. From there, click on 'Integrate Calendar' and the 'Customize' button. Ensure the new member's calendar is in the list on the bottom left. Then click the copy button (the 2 overlapping squares) to copy the code.

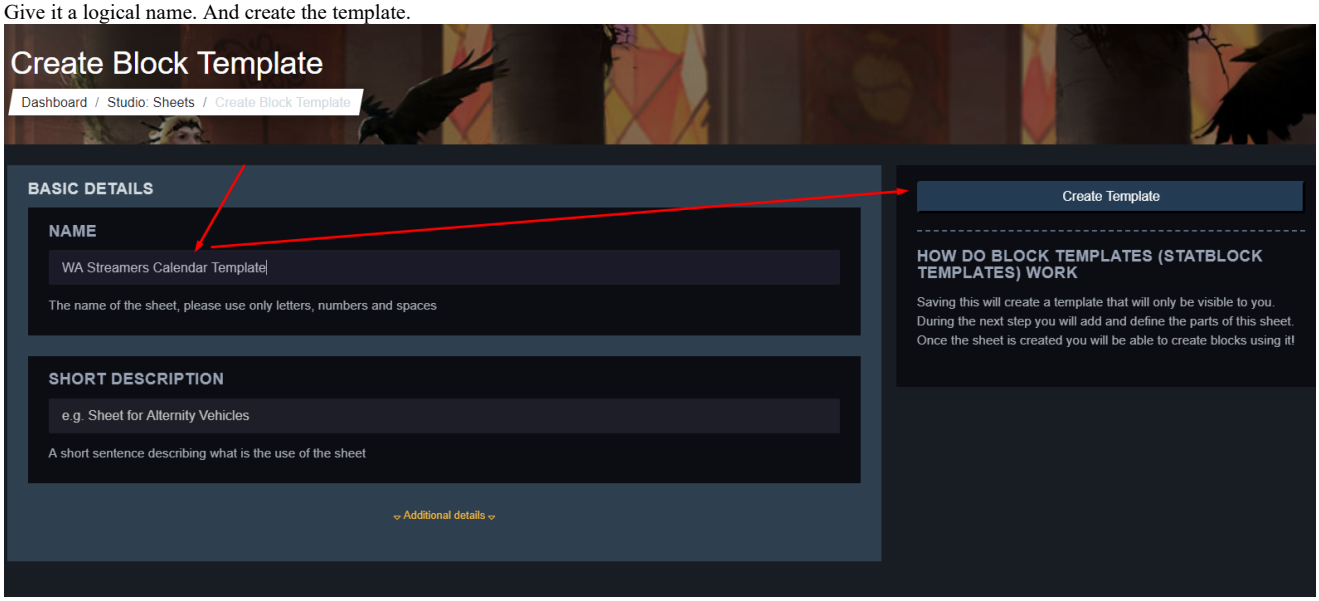


Paste the iframe code into a text editor, and copy the URL for the calendars. The URL is HUGE.

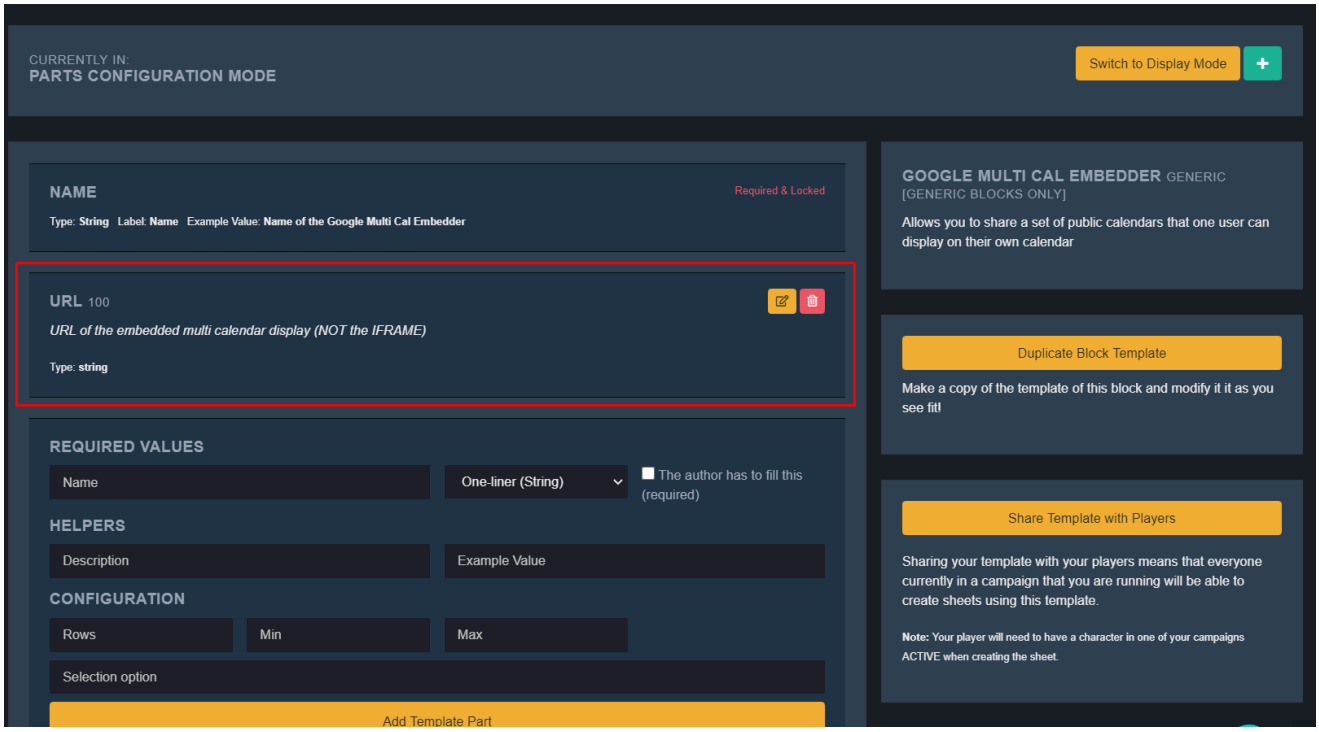
```
<iframe src="https://calendar.google.com/calendar/embed?height=600&amp;wkst=1&amp;bgcolor=%23ffffff&amp;ctz=Etc%2FGMT&amp;src=
                                                                                                                    mNvbQ&amp;src=
                                                                                                NvbQ&amp;src=
                                                                                                NvbQ&amp;src=
                                                                                                N
```



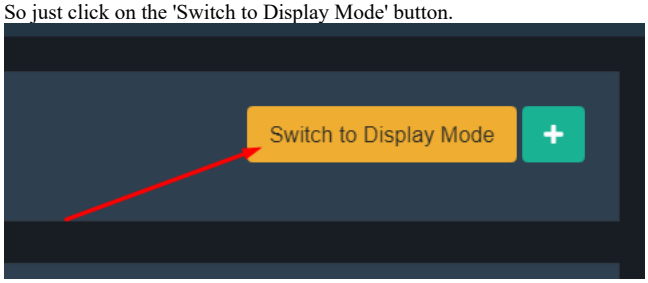
Give it a logical name. And create the template.



We need one variable- the URL for the google calendar list. Add a variable, make it required, and fill it out to be like the one in the red box - with the EXACT SAME VARIABLE NAME. (I'm not yelling - the code I share later won't work if it's not spelled exactly the same.)

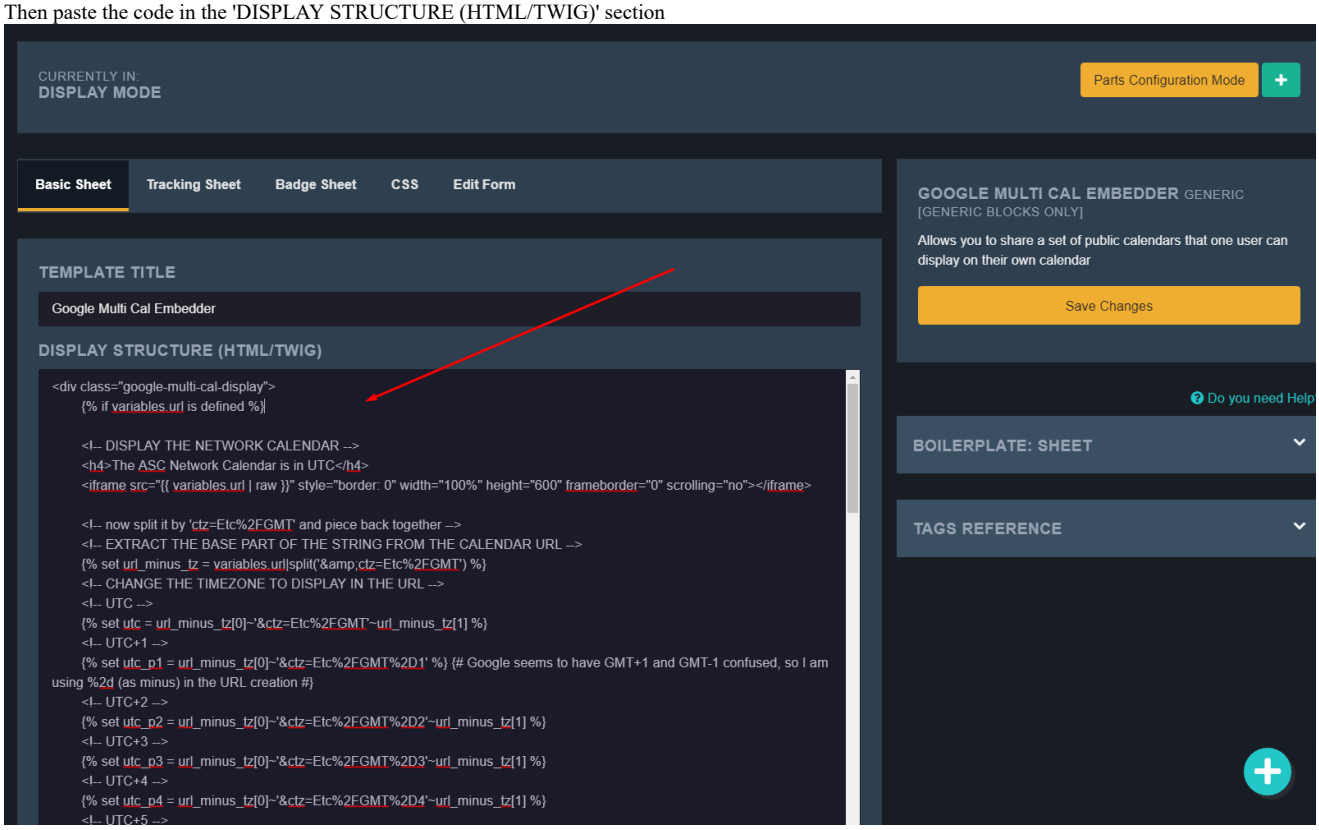


So just click on the 'Switch to Display Mode' button.

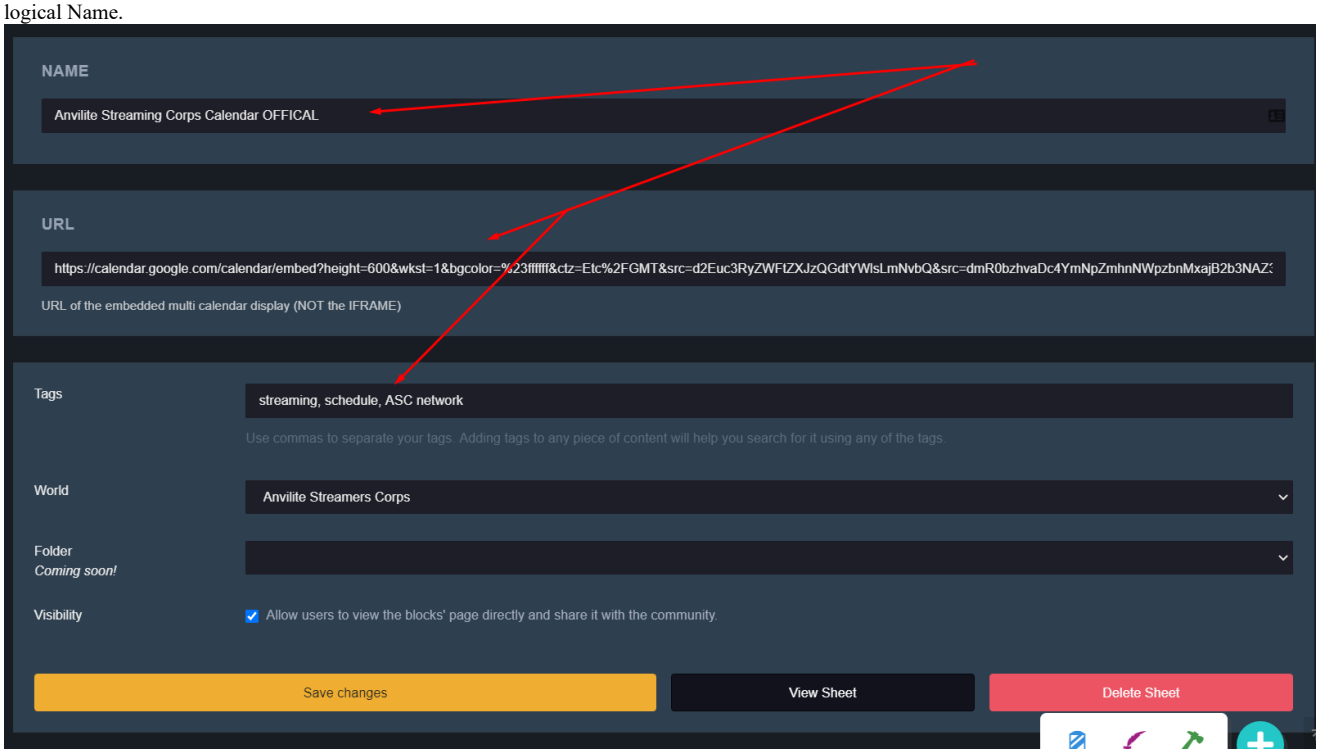


Ensure the Template Title has a logical name. I called my copy "Google Multi Cal Embedder". Copy the code from github.

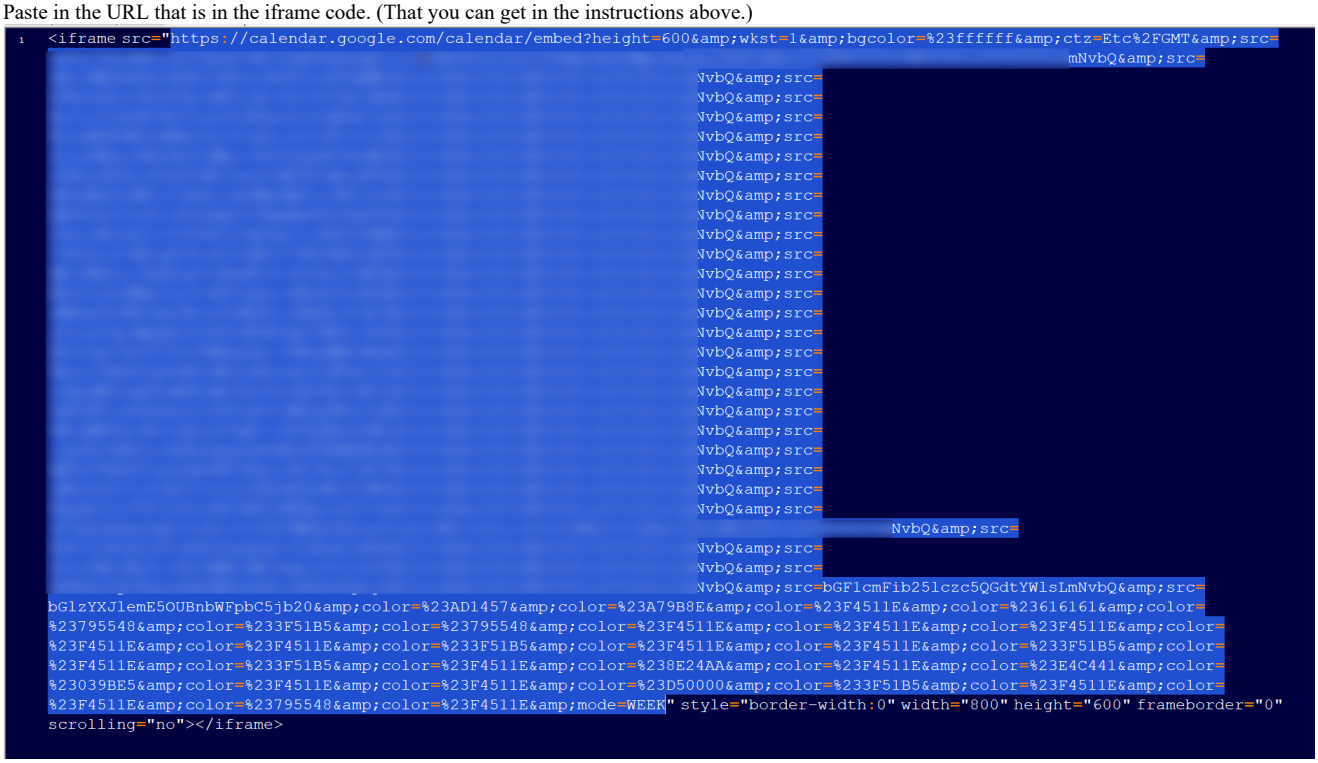
Then paste the code in the 'DISPLAY STRUCTURE (HTML/TWIG)' section



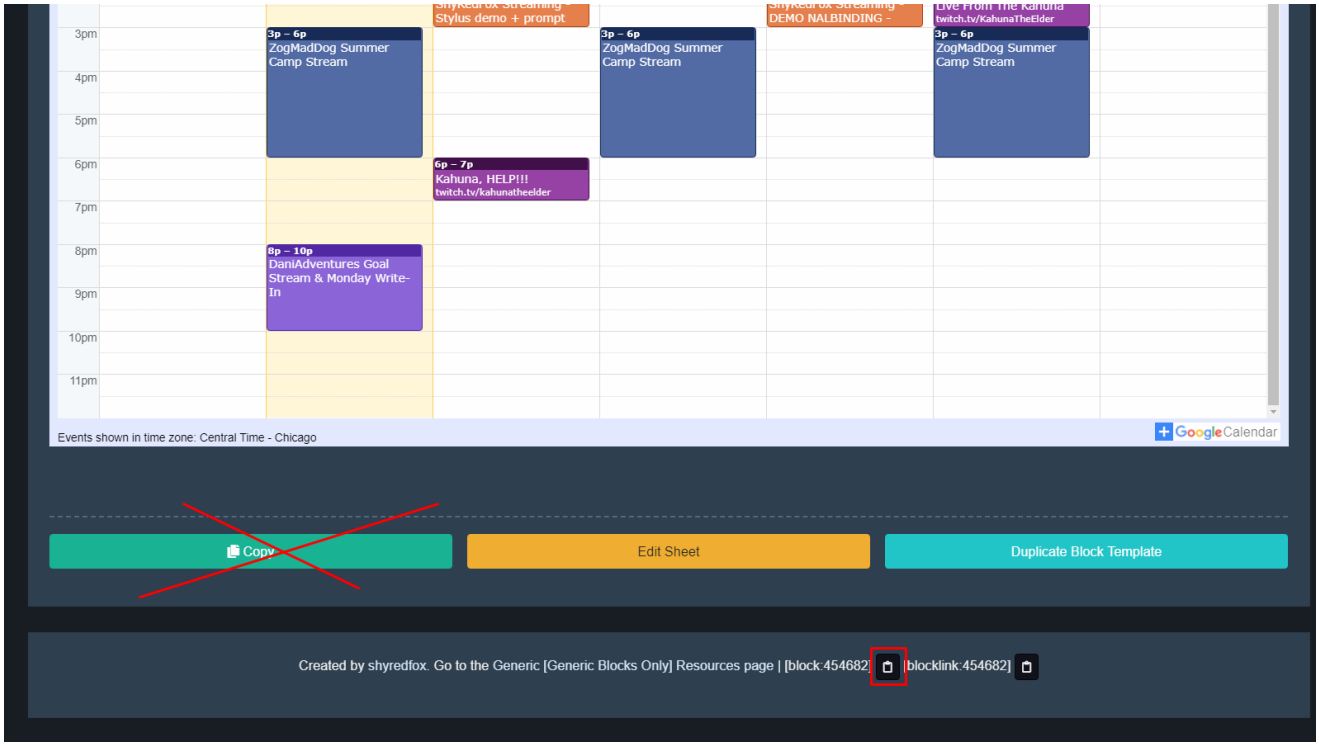
Click the 'Save Changes' button. Then click the green '+' button to create a statblock from the template. Then you'll be taken to a page like this. Give it a logical Name.



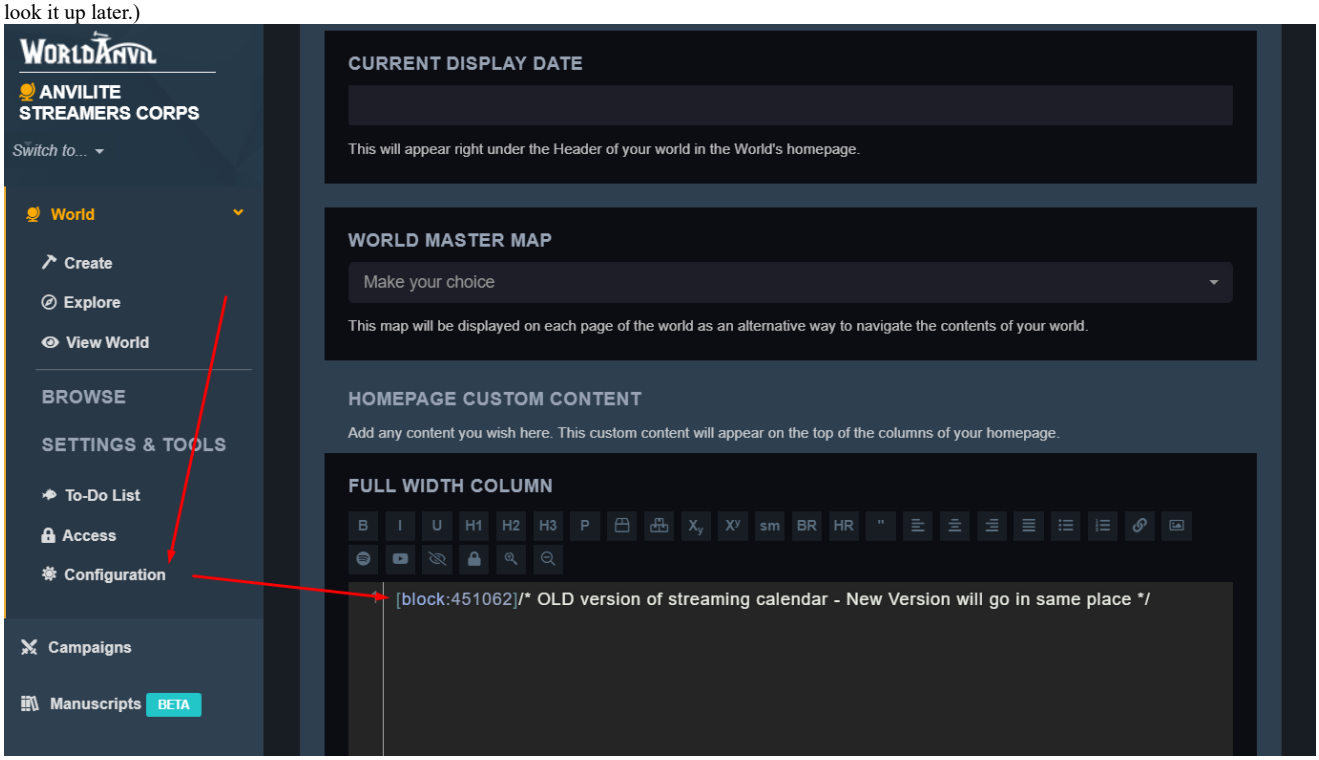
Paste in the URL that is in the iframe code. (That you can get in the instructions above.)



```
<iframe src="https://calendar.google.com/calendar/embed?height=600&amp;wkst=1&amp;bgcolor=%23ffffff&amp;ctz=Etc%2FGMT&amp;src=
                                                                                                                    mNvbQ&amp;src=
                                                                                                NvbQ&amp;src=
                                                                                                NvbQ&amp;src=
                                                                                                N
```



Paste it into the Anvilite Streamers Corps world configuration Full Width Column. (Leave a comment there too so you know what it is and don't have to look it up later.)



Save the world configuration. And verify it looks right on the Anvilite Streamers Corps homepage.

And wa-lah! Done.

NaNoWriMo

> National Novel Writing Month (NaNoWriMo, or just NaNo for short) is a fun, seat-of-your-pants approach to creative writing.
> — NaNoWriMo

NaNoWriMo is an event which challenges you, and authors, and well, everyone; to write a 50,000 word Novel in the month of November. "50,000!?" I hear you scream, and yes, 50,000.

It is a grand challenge which occurs every year during the month of November. However, there are events before this 'grand finale' which should help you prepare!

Starting from September 13th, 'NaNo Prep' begins, where each week we're given tasks to help us get ready. Check the NaNo Prep section for information or visit the NaNo Prep Website.

Taking Part!

Want to add your stream to the Calendar? Using the same method as shown to you in the Adding Your Streaming Events to the ASC Network Calendar article; invite your Google Event to the ASC Event Calender using it's Calender Email Address below.

Calendar Address

Don't forget to change the (at) to the actual symbol.

```
hholk1d92qi6poh2pnmjcl8tjo(at)group.calendar.google.com
```

ASC Events

Generic article | Sep 8, 2020

The fun stuff, how to join, and how it is organised with the ASC.

NaNo Prep

This is the dates for the different stages/events for NaNo Prep. For more information and resources visit the NaNo Prep website, here.

September 13-19 Develop a Story Idea
September 20-26 Create Complex Characters
September 27 – October 3 Construct a Detailed Plot or Outline
October 4-10 Build a Strong World
October 11-17 Organize Your Life for Writing!
October 18-24 Find and Manage Your Time

Streaming Schedule

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. Adding Your Streaming Events to the ASC Network Calendar

Let's See If We Can Hit 24 Hour Coverage!

It would be great if you can help fill out areas on the ASC Network calendar that don't have coverage. Coverage helps us raid, so we bring each other viewers. If you end up streaming at the same time as someone, perhaps you both/all can find a way to work together and perhaps feature each other or interview each other, instead of competing for viewers.

Please know that we understand if you can't. We don't want you skipping sleep, or not eating, or anything like that to fill in the calendar gaps. Ok?

The ASC Network is Moving to a Simplified Calendar System

Instead of our calendar subscribing to each members calendar (50+ at the time of this writing--which making loading the calendar very slow) we're moving to having members invite the appropriate calendar to your event, so it will automatically show up with no intervention from us. No more waiting for us to approve calendars to for the network.

You will still have complete control over your events. And be able to separate them out into WA Announceable events and another category called All Inclusive (where any member's streams can be added--whether it be using software of your choice or video gaming, or whatever--as long as it's allowable by your streaming platform). There are a few more steps detailed below. But this gives you more control and allows for members to share all of their streams.

It also allows you to have just one calendar for your streams.

If you don't see your events on the Network calendar, please ensure that you converted your events to the new way of adding them. See the "Invite The Streamer Calendar" section for more info.

(The TWO WEEK transition period has passed where we display both the old style calendar and the new one on the main calendar. The old way where we followed each individual's calendar, really slowed down the loading of the page and was quite a bit of work to maintain.)

Please let us know when you have your stream events transitioned to the new calendar system by pinging Shyredfox in the #streamers-corps channel on the WA server or emailing us wa.streamers(at)gmail.com. Then we can remove our subscription to your calendar. The ASC Network calendar will load faster for each calendar we can unsubscribe.

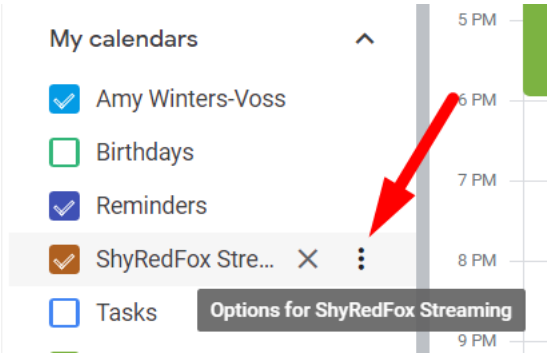
After the transition period, we will unsubscribe from all calendars (except the World Anvil streaming calendar).

If you have questions, we'll be happy to help you. We'd like to make this transition as painless as possible for everyone.

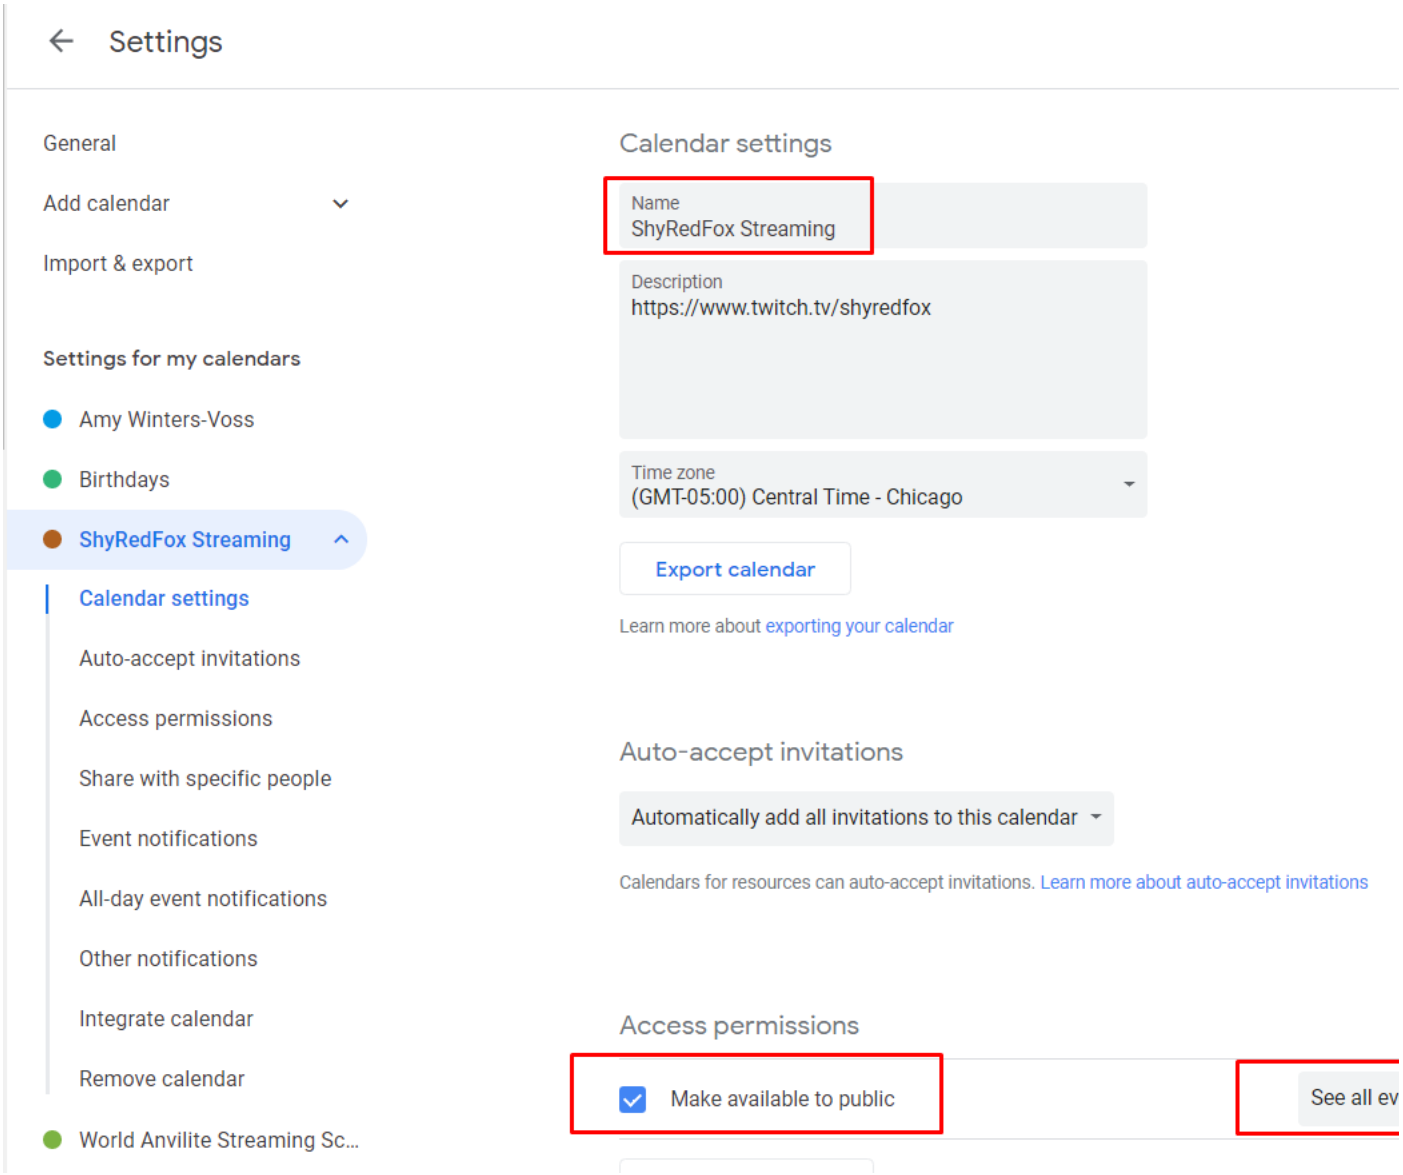
Set Up Your Calendar

Create a Google calendar of only your streaming/broadcasting events. **Please your put your WA and or Discord name in it.** (Otherwise we'll have 50 calendars called 'Streaming Schedule'.)

Go into your calendar's settings, by hovering over the name of the calendar. Click the 3 dots. Choose 'Settings and Sharing'.



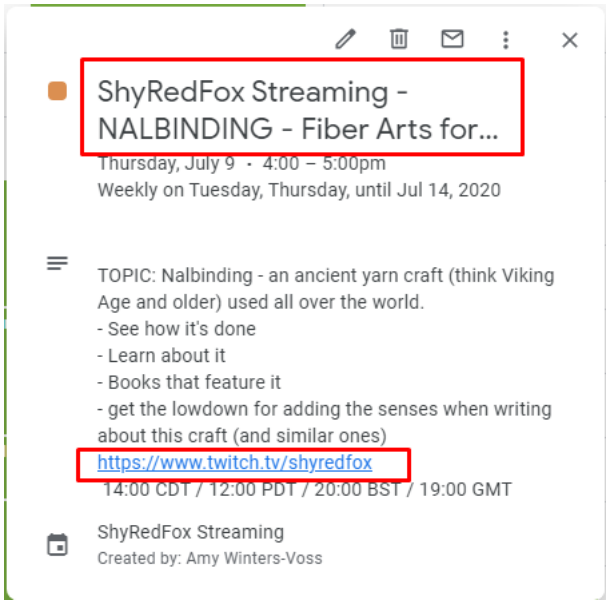
Make the calendar available to the public where 'See all event details' is selected.



Add Your Events

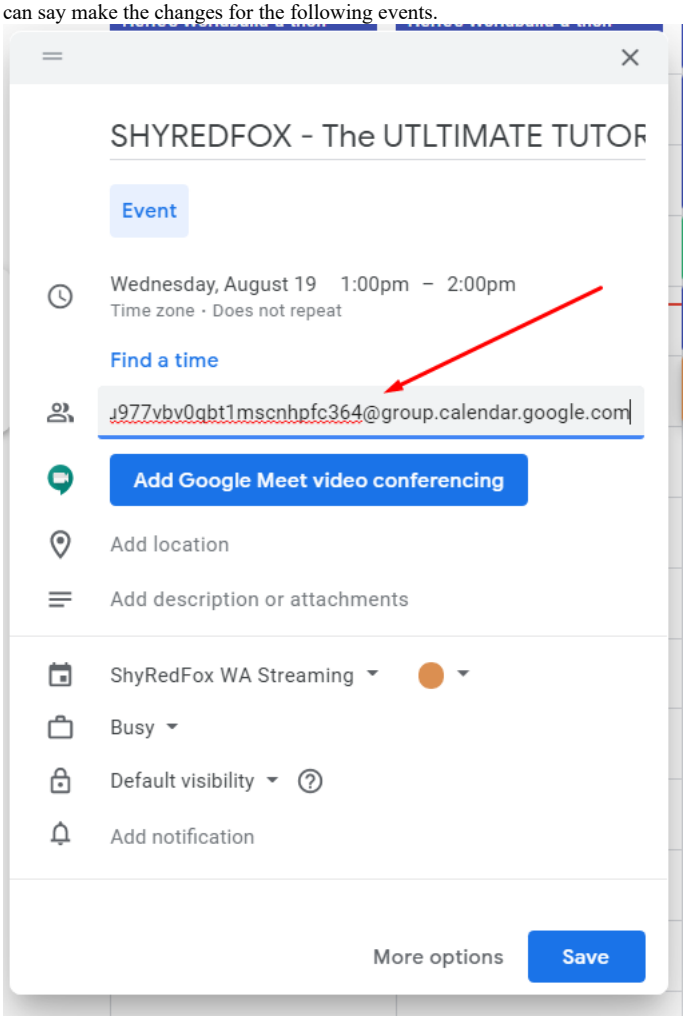
Put in **each** of your events: Your WA name (and streaming/broadcasting name if it's different)

- the link to your stream/channel (full url, please)
- a bit of what it's about in the description



Invite the Streamer Calendar

Create or edit your event and invite the appropriate calendar to your event. If you have repeating events, only the first one needs to be changed, then you can say make the changes for the following events.



For WA Annouceable events, invite this calendar to your stream event.

```
47iskoav8341dvtld0l0bi1ss8(at)group.calendar.google.com
```

For everything else, invite the All Inclusive calendar to your stream event.

- UTC-4
- UTC-5
- UTC-6
- UTC-7
- UTC-8
- UTC-9
- UTC-10
- UTC-11

Click on the dropdown menu and click your timezone to open a new tab with a calendar converted to that timezone.

*If you're not sure what your UTC offset is:

- Use this converter.
- Under the green box there is a link to set your location.
- If the blue box says UTC is ahead of your time by X hours you are UTC-X.
- If the blue box says UTC is behind your time by X hours you are UTC+X.
- Remember the switch to and from daylight savings time changes the offset.

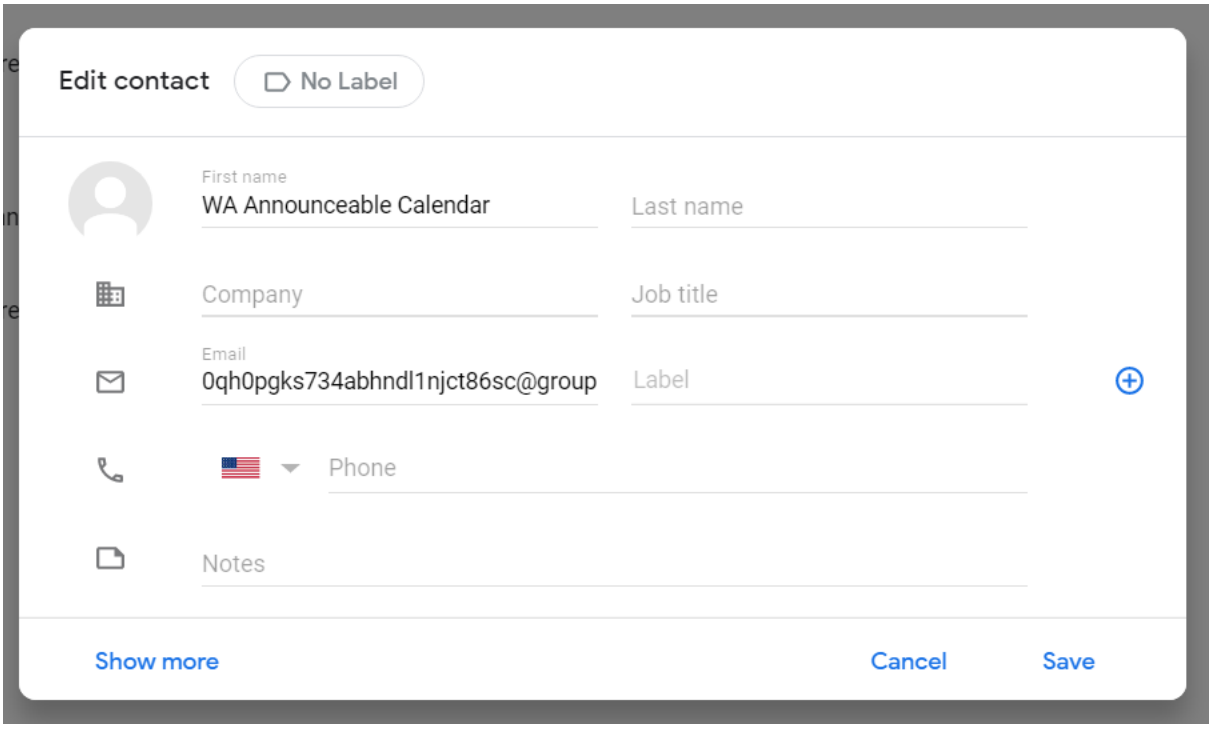
```
11drsl8tapsjs2ul577e1o1g2s(at)group.calendar.google.com
```

Please replace the (at) with a real at sign when you paste the calendar addresses in to your events. WA doesn't play nice with at signs.

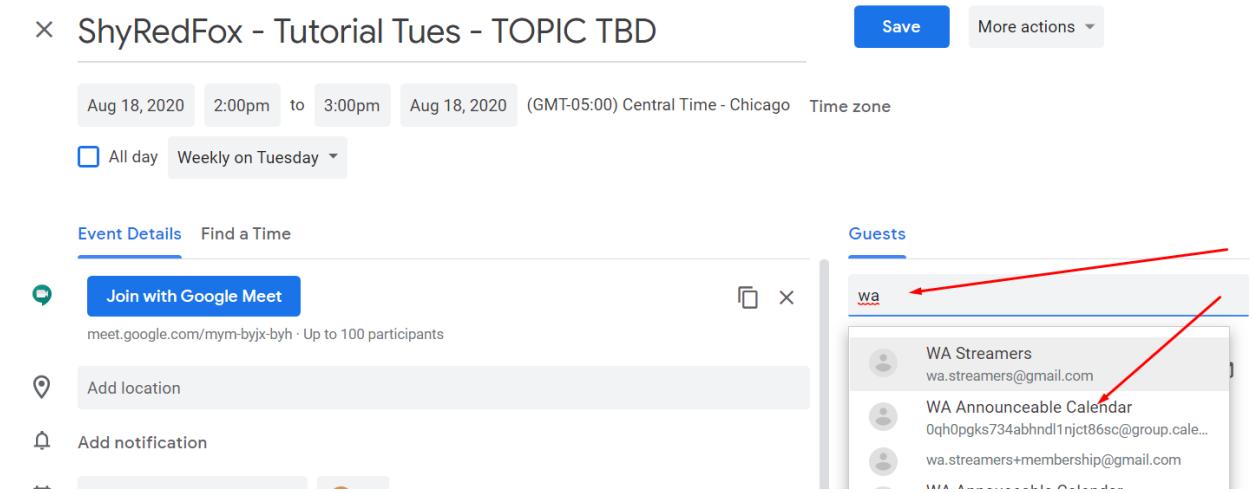
To make the process easier

For future events, you can add the calendars to your Google Contacts.

Click the '+ Create Contact' button and 'Create a Contact'. Fill in the calendar name and paste in the email (replacing the (at) with an actual at sign). Then save.



Now when you invite a WA calendar to your event, you can just type in part of the name and it will show in the list.



You don't have to worry about the mess of random letters and numbers of the calendar name again.

The Magic

Once you invite the correct calendar to your stream events, they will show up on the Anvilite Streaming Corps Network calendar. You can edit them in your own calendar to your heart's content. To see any additions and changes refresh the page.

Help - If Your Events Don't Show Up

Please try the following.

1. Ensure you added the item to the correct calendar. A mistype in the calendar address will keep your event from being added.

2. Refresh the calendar page.
3. If you are seeing an error message from Google that says "Your event can't be edited/updated," Google can be cranky as it tries to avoid spam on public calendars. Usually just waiting a few days works. (Let your calendar volunteers you if you need the event posted because it's happening soon, we'll help you get something posted.)
4. Contact one of the calendar volunteers, ShyRedFox and Kahuna.

If You Need to Stop Streaming for a While

Just uninvite the calendars from your events. In an emergency you can contact the calendar coordinators and they will remove your events from the calendar. We know life happens.

ASC Events

Events on Now!

ASC Members! You can take part and stream for any of these, by clicking on the event you want to take part in and get any necessary information there. Please, make sure toread the Events Streaming Guidelines

Click on a link below for the event you're most interested in to see who is streaming!

World Anvil's September Challenge - Alliance

Generic article | Sep 8, 2020

LIGHT UP THE FORGE, with this challenge by creating an alliance in your world! Click here for more information!

Upcoming Events

ASC Members! These events are for you to plan ahead of time (which I, Heffé recommend you do). Please make sure to follow the guidelines.

Here are the events which are enabled for you to get ready, and especially get **HYPED** for!

NaNoWriMo

ASC Event | Sep 8, 2020

"National Novel Writing Month [NaNoWriMo, or just NaNo for short] is a fun, seat-of-your-pants approach to creative writing." - NaNoWriMo.org.| Click here for more!

What is this?

Throughout the year, there are many creative events and challenges. This page is to not only to tell you who is doing what so we can hype them up and support them, but it is also to let you know how to join in.

Remember, for the challenge events, you do not need to stream to take part! These calendars are for viewers to see who is on and ASC Members to organize their streams to avoid clashes and to raid/support each other.

Any questions, feel free to ask in the comments below; or ask me (Heffé) on Discord (you should be able to find me on the WA Discord)..

IRONGORGE
Hall of Fame

EXCLUSIVELY for World Anvil's WorldEmber and Summer Camp challenges!

Think you can stream everyday AND complete the challenge or will you become fodder for the **IRONGORGE**?

If you're up for the challenge, let Heffé know on **Discord**.

Events Calendar

If you'd like to plan ahead, here are some events to look out for in the future. If you have any requests for an event, message me (Heffé) on Discord or comment below and we'll see what we can do!

Events Streaming Guidelines

1. **Stick to your usual routine!** If you have your own schedule of regular streams, then continue to follow it! For those who don't, try to weave your way between them, or start regular streams. Just invite the Event Calendar to your current Google Calender Events.
   I understand this can be easier for some than others, but being as regular as you can is recommended. This helps everyone; yourself, other streamers and your viewers!

2. You **may** take part in more than one event, even if the events are on at the same time. However, only stream for **one** event at a time.
   This is for your own sanity, our sanity, and most importantly the viewer's sanity; as they can understand what it is you're streaming and watch you.

3. **Avoid clashing!** However, you **may** stream at the time as some one else **only if** you're streaming for a different event as them.
   This allows for those who aren't taking part in one event, to stream for an event they are taking part in at the same time.

4. If in doubt, ask in the comments or ideally in the WA Discord, in the #streamer-corps channel.
   Seriously, we don't bite. Our goal (and especially mine, Heffé, as ASC Events Coordinator) is to help all of us. Communication is key!

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. Graphics are labeled with the creator's name (either right below the graphic or at the bottom of the page) and are copyright the creator of the image. All rights reserved.

Johan Winqvist

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile. (The white button above.)

Broadcast Topics

RPG, worldbuilding, Q&A

Channel Summary

I alternate building on two different worlds: Lost Waves, a fantasy setting with influences from Arabian Nights and D&D; and Thorns, a modern horror setting. Both are intended for roleplaying and are thus very modular and has hooks to be interesting. I also allow viewers to contribute articles they want in the world by spending their stream points.
For those who wonder, Charon is pronounced with a K at the beginning. Unless you're fancy and know how to pronounce it in Greek.
Mondays 8 PM CET/CEST Building the Lost Waves setting
Wednesdays 8 PM CET/CEST Building the Thorns setting

For any suggestions or questions, DM me on Discord or join my server there.

Want to Help?

Our goal is to have at least two people able to handle any of the jobs for the Network - so there are no gaps if the officers have to step down or have an emergency. If there's somewhere you'd like to help out, let us know!

Gratitude

Thank you to all who have contributed, supported, and helped out to make our Network a possibility!

ASC Member - Dinosaur Bob

Bob O'Brien

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile. (The white button above.)

Broadcast Topics

worldbuilding, RPG, mapping, writing

Channel Summary

RPGDinosaurBob will be broadcasting three times a week - Sunday, Tuesday, and Thursday. Each day will have its own focus:

- Sunday at 10AM Eastern US Time will deal with integrating maps into your worldbuilding, and especially into RPG Campaign Setting building.
- Tuesday at 10AM Eastern US Time will be "generic" worldbuilding - like what we've been doing in Summercamp.
- Thursday at 9:30AM Eastern US Time will focus on using WorldAnvil to write RPG Adventure material for GMs and Players - and for eventual publication.

ASC FAQ

The ASC Code

Our code is the heart of who we are as a group.

> Building worlds. Building community. Building up people.

Our adherence to the code shows our character.

The ASC Code

Our purpose is to help our fellow World Anvil streamers and producers. We grow together and have power in unity.

We support, coordinate, promote, raid each other on twitch (if you stream there or whatever your platform allows), etc. If you overlap with someone - raid or do a stream together sometime.

WA requests that we not stream at the same time they do.

Our values:

- We're a team. We support each other.
- We are kind, polite, and respectful of others.
- We don't speak badly of our members or other broadcasters.
- We don't do things to take away viewers from others.
- We mentor newbies and welcome them.
- We advertise for the network.
- We respect our viewers. It’s one thing to have, say, a political opinion--quite another to put viewers down because they disagree, or to sexually harass someone. Harassment has no place in our community.
- Streaming makes us public figures, so we keep that in mind when we speak.
- World Anvil is the heart and lynchpin of our existence as streamers, so we consider this in how we represent them. They have listened to us and graciously allowed us a chapter like group, a fan community of sorts. We can't speak for them or overide their business interests.
- We follow our platform's Rules of Etiquette.
  Twitch Etiquette

FAQ

Since we are a chapter-like fan group of streamers and broadcasters under World Anvil (WA) but not a part of the World Anvil business, here are some guidelines.

Guidelines for Posting Events to the ASC Calendar and WA Server

A few cases have been brought to ASC's attention where people are streaming non-World Anvil topics and software and posting it here on the WA server. Since we are a fan group of WA and yet some wish to stream non-WA topics, here is a summary that includes guidance we received from WA.

We will not restrict what you can stream, just what gets posted on the ASC Network calendar, the WA server, and promoted by WA. If people repeatedly post streams to the WA server and ASC calendar that aren't WA related (as defined below), we will remove them from the ASC membership roster and their streamer role on the WA server will be removed. We are guests on WA’s server and need to respect that they need to preserve WA interests.

1. Since this is WA's server, we can only post WA related streams to the WA server (the #anvil-streams channel, or anywhere else). ASC will follow this rule for the calendar. So our requirements have tightened.

2. By WA related streams we mean working on your world with WA, using WA for your writing*, making a map for your WA world**, art related to WA, the occasional RPG game based on a WA world, etc.

* Since WA now includes writing software, please don't use other software in your streams for writing. If you use Scrivener for writing your book related to your WA world, but want to stream it there are two options.

  - If you put the event on the ASC calendar, it should use WA software. (You can copy/paste into Scrivener, Google Docs, etc. later if needed). If you wish to copy and paste from WA into other software - please be discreet. (Don't say "I'm going to past this into Google Docs later". People don't have to know that level of detail. We also don't put down WA or direct people to non-WA software. Remember we are guests on thier server.)

-If you wish to stream with Scrivener (or another writing software that isn't on WA), please don't put the streaming even on the ASC calendar.

** WA does not include map making software, so you may use what you like. Should WA contain map making software in the future, mapping will follow the same rule as writing.

3. If you wish to stream non-WA related things, we have two ways to help you bring some attention for those streams. We will have at least one (maybe more) calendars below the main ASC Network calendar on the calendar page. Also, you will have your profile page calendar.

Ultimately, it is up to you to grow your audience.

These are the expectations we need to follow for any ASC Network events posted to the calendar or shared on the WA server. For now your member profile can contain any non-ASC Network events. Directions for setting up multiple calendars are on the How to Create Your ASC Member Profile page.

As stated in point 3 - we will have a secondary calendar. But the calendar system as a whole is being re-looked at. We'll have the secondary calendar or calendars soon. Here's what we expect that to look like.

How We Work

We are a group focused on growing and mentoring new ASC members and supporting each other as streamers and broadcasters. The ASC cannot be used as a means to simply increase a streamer's following. We are an 'all for one and one for all' group and work together.

Finding the ASC Around the Web

Our official home is on our WA page and in the #streamers-corps (channel is open to members only). We also have a Twitter and Facbook page. You can also reach us via email (wa.streamers (at) gmail.com).

Working with the ASC

Official ASC involvement in events must be approved by a vote of the ASC officers.

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. Graphics are labeled with the creator's name (either right below the graphic or at the bottom of the page) and are copyright the creator of the image. All rights reserved.

Stormbril

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile. (The white button above.)

Broadcast Topics

various, Art, Worldbuilding, Gaming and CSS

Channel Summary

Stormbril broadcasts 3 (hopefully, to start) times a week. (I might do more here and there!)

Friday night, 10pm to 12/1am PST
Friday shall be my art streams! We'll be drawing whatever I'm currently working on.

Sunday morning, 10am-12pm PST
Relaxing Sunday gaming stream. Will lean towards games that inspire or relate to Cathedris.

Wednesday evening, 8pm-10pm PST
Wednesday streams of various topics. Might game, worldbuild, draw, or work on CSS.

I'm open to suggestions of topics to cover, games to play, or guests to have on! Feel free to message me on Discord, I'm Stormbril#0001.

ASC Member - Lyraine Alei

Lyraine Alei

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile. (The white button above.)

Broadcast Topics

worldbuilding, Writing, RPG, Art

Channel Summary

I, Lyraine Alei, broadcast once a week. I will likely have unscheduled streams from time to time, but they're not always going to be World Anvil related, which is why they'd not be on my calendar.
When saying my handle, feel free to drop Alei, most people do anyway. ^_^

Topics I want to cover in my scheduled streams

- BBCode Tutorials
  - words words words
- Worldbuilding - discussion topics, research, thought experiments
- Art for my world
- Writing, Campaign Planned

Topics of my unscheduled streams

- Playing video games, chattering about game lore
- Anything my scheduled streams would cover as well

Mondays 2 PM PST/PDT) Worldbuilding Corive, doing stuff with articles
If there's a topic you'd like covered DM me on Discord!

Streaming Calendar

Timezone: GMT (currently UTC+1)

Applying to the ASC

We want to be as welcoming and open a group as possible. We have a few requirements, just to make sure the group's goals are met and that we don't have people using the ASC only for the calendar and not giving back to the group or supporting World Anvil.

The ASC Code

Our purpose is to help our fellow World Anvil streamers and producers. We grow together and have power in unity.

We support, coordinate, promote, raid each other on twitch (if you stream there or whatever your platform allows), etc. If you overlap with someone - raid or do a stream together sometime.

WA requests that we not stream at the same time they do.

Our values:

- We're a team. We support each other.
- We are kind, polite, and respectful of others.
- We don't speak badly of our members or other broadcasters.
- We don't do things to take away viewers from others.
- We mentor newbies and welcome them.
- We advertise for the network.
- We respect our viewers. It’s one thing to have, say, a political opinion--quite another to put viewers down because they disagree, or to sexually harass someone. Harassment has no place in our community.
- Streaming makes us public figures, so we keep that in mind when we speak.
- World Anvil is the heart and lynchpin of our existence as streamers, so we consider this in how we represent them. They have listened to us and graciously allowed us a chapter like group, a fan community of sorts. We can't speak for them or overide their business interests.
- We follow our platform's Rules of Etiquette.
  Twitch Etiquette

If you run into problems, contact one of the admin.

Requirements and application for Anvilite Streamers Corps:

- Have a World Anvil account for at least 1 month. (This is to avoid people creating an account to use our signal boosting, then leaving. See ** below if you have an account younger than 1 month.)
- Have an active world. We'll be checking new profiles. If you haven't updated anything on World Anvil for more than 2 months, please make an effort to do so. (We understand things like emergencies, major book edits, kick starters, etc. happen and take alot of time. We won't delete your calendar on our side, just hide it until you are active again. Though exceptions can be made on a case-by-case basis. Please talk to us for this.)
- Be a member of the World Anvil Discord
- You must have World Anvil content in your streams. (This can be things such as working on your world, making a map for your world - and referencing back to WA for names and other things, writing a story related to your world - and referencing WA for things in it, etc. But let people know how it relates to World Anvil.) We work alongside them and wish to share the goodness of the worldbuilding platform. Secondhand Samurai#3947 will be verifying content, since we are under the WA umbrella now. You can ask him to verify before applying to speed up the process. This section was updated 7/29/2020 and we will be announcing a deadline for compliance. Please add an alternative calendar to your profile for non WA related streams. This way you can share about these other streams, but not clutter up the WA calendar. It's getting very full! Directions are for including them in a second calendar on your profile are availabe at How to Create Your ASC Member Profile
- If you're a brand new streamer please start streaming WA related content, and check with Secondhand Samurai#3947 if you don't already have the Streamers role.
- Your content must be allowable on the platform you stream or broadcast on. Familiarize yourself with the platform's requirements.

If we need to add more details to these requirements - the membership will decide on the update to the requirement.

NOTE FOR NEWBIE STREAMERS ON TWITCH:

Please know that members will try 'raid' you when they can. This is a good thing. It will bring you viewers and likely followers. Please be gracious and thank them for the raid and for coming. The raiding streamer didn't have to raid you and share their viewership with you. Yes, it interrupts what you are doing, but it really is a benefit in the long run! It's part of how we support each other. If you'd like to learn more, check out this video.

NOTE FOR PEOPLE STREAMING MUSIC:

Please use non copyrighted music in your streams. The DMCA can mute your stream. So look into options like the NCS channel on Youtube or https://www.pretzel.rocks/ for your streams. Also note where your music was from in your credits. This is to protect your streaming/broadcasting channels.

**** NOTE FOR NEW ANVILITES NOT ABLE TO APPLY QUITE YET ****

- UTC-5
- UTC-6
- UTC-7
- UTC-8
- UTC-9
- UTC-10
- UTC-11

Click on the dropdown menu and click your timezone to open a new tab with a calendar converted to that timezone.

*If you're not sure what your UTC offset is:

- Use this converter.
- Under the green box there is a link to set your location.
- If the blue box says UTC is ahead of your time by X hours you are UTC-X.
- If the blue box says UTC is behind your time by X hours you are UTC+X.
- Remember the switch to and from daylight savings time changes the offset.

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. Graphics are labeled with the creator's name (either right below the graphic or at the bottom of the page) and are copyright the creator of the image. All rights reserved.

We will host a special calendar for people new to WA (initiates), if they are actively streaming WA related content. We don't want to leave people out. (*Coming soon*)

To apply:

Copy the template below, fill out the info. (Make it easy on us, please. We are doing this for you. Don't make us hunt info down. It will only slow down the process.)

- **Your email (Remember you're making it easy for us to help you!):**
- **Your full Discord ID (It should look like this: ShyRedFox#1234):**
- **Full URL link (with https://) to your World Anvil profile:**
- **Full URL link (with https://) to your streaming platform channel(s):**
- **Main topic:** (Pick only one from the list below, please. This is how we will color code your channel for the network calendar. You can request a different option not on the list. Let us know in the email. You can also request a change of color/topic later. Just email us to let us know. You can list other topics on your member profile page.)

MAIN TOPIC OPTIONS (pick only *ONE*)

- worldbuilding
- art
- music
- writing
- RPG
- gaming
- tutorials
- various

Then send it to wa.streamers+membership(at)gmail.com. (Yes it's realy with the +membership. Google allows a +(whatever) so you can sort and filter things easily.)

Once verified, we'll email you and you will have access to the directions on how to add your own streaming calendar to the network calendar, and the Network icons, posters, etc.

How Long Will It Take For My Membership to Be Reviewed?

We are volunteers. Sometimes we may be super quick about getting this done. Sometimes it might take a little longer. Our goal at this point is to process membership about once a day.

All content copyright is to the authors of its content. (Please see the articles for the author's name.) World setup content copyright Amy Winters-Voss. Graphics are labeled with the creator's name (either right below the graphic or at the bottom of the page) and are copyright the creator of the image. All rights reserved.

ASC Member - Coffeequills

CoffeeQuills the Coffee Quaffer

To learn more about me, see what I'm working on, or follow me on World Anvil and social media, please check out my World Anvil profile. (The white button above.)

Broadcast Topics

worldbuilding, Writing, gaming (4thewords)

Channel Summary

Coffee's streams will be a combination of 4thewords (an RPG for writers) and World Anvil (world forging) so that weekly progress can be made on the various worlds I write in. So far topics talked about have included double pupils, ink languages that are licked to be read, and mutations. LGBTQIA+ friendly.

MON 14:00-16:00 JST (GMT+9)
Coastal fantasy with dragons, octopi-beings, & a detective.
Lucky Number 7 (book series)

TUE 14:00-16:00 JST (GMT+9)
Post-apocalytpic LitRPG
Our Mutual Ruins web serial

WED 14:00-16:00 JST (GMT+9)
Space opera with psions, cyborgs, & monks.
Mind Candy (stand alone book)

THURS 14:00-16:00 JST (GMT+9)
Fantasy sky pirates, found family, and luck magic.
Cloudlark web serial

FRI 14:00-16:00 JST (GMT+9)
Steampunk, music, and ghosts.
TSU - Title Still Unknown

Broadcast Topics

writing, Worldbuilding, Writing, Creativity & Goal Coaching, Interactive Fiction

Channel Summary

DaniAdventures is a creativity and goal coach, writer, and worldbuilder. She broadcasts 3 times a week. Occasionally there will be an off-schedule community stream chosen by her viewers. Community streams will be announced on-stream or in Dani's Discord server.

MONDAY 10-12 AM EST Monday Goal & Write-In! Dani talks plans for the week & hosts writing sprints. World Anvil, 4thewords, and Squiffy are featured on this stream.

WEDNESDAY 10-12 AM EST Worldbuilding Wednesday! Dani builds her galaxy for her To Do List Adventures, gets distracted from sprinting, & drinks too much coffee. World Anvil and Squiffy are featured on this stream.

FRIDAY 10-12 AM EST Fiction Friday Prompts! Winners of past sprints (kitty races) pick prompts to challenge the community on-stream. Writing is done live on the prompt choice and viewers can share during the stream. World Anvil and 4thewords are featured on this stream.

World Anvil's September Challenge - Alliance

This is the next World Anvil Challenge. These kind of challenges lasts for the whole of the month and participants are given badges and the chance to win prizes. Details of these challenges will be displayed here, when we're given them.

Remember!

For the challenge events, you do not need to stream to take part! These calendars are for viewers to see who is on and streamer ASC Members to organize their streams to avoid clashes and to raid each other.

Taking Part!

Want to add your stream to the Calendar? Using the same method as shown to you in the Adding Your Streaming Events to the ASC Network Calendar article; invite your Google Event to the ASC Event Calender using it's Calender Email Address below.

Calendar Address

Don't forget to change the (at) to the actual symbol.

```
991alc6jkh0urctpk29avijol4(at)group.calendar.google.com
```

ASC Events

Generic article | Sep 8, 2020

The fun stuff, how to join, and how it is organised with the ASC.

Challenge Details

Description: Using the Organisation template and in less than 2500 wrods, describe a Alliance in your world! For more information, check the link below.
Link: The Alliance Challenge - Click me!
Start: September 5th 2020 at 7pm BST (London Time)
Finish: October 10th 2020 at 23:59 BST (London Time)
